The Daunting Climate Change Oct 21 2022 The book starts with an overview of Climate Science. It discusses the signs of Warming, the impacts and consequences on several sectors - terrestrial and coastal ecosystems, water resources, ocean systems, agriculture, food production and food security, human health and safety, livelihoods and poverty, Arctic populations, low-lying States, so on. Mathematical models to project future climate and the resulting concerns, global adaptation experiences, and opportunities for future execution are explained. The mitigation approaches, chiefly decarbonizing the energy sector by developing and applying clean/low carbon energy sources and improving energy efficiency, and the evolving geoengineering schemes are dealt. Carbon pricing, an economic tool to ensure emissions reductions, and transition to a low carbon economy to stimulate sustainable growth are described. The continued global efforts under the UN or otherwise until the recent Paris Agreement to arrive at policy responses to tackle this intriguing but daunting problem of climate change are vividly expounded. Note: T&F does not sell or distribute the hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

Big Green Purse Mar 14 2022 Read Diane McEachern's posts on the Penguin Blog. Protecting our environment is one of the biggest issues facing our planet today. But how do we solve a problem that can seem overwhelming-even hopeless? As Diane MacEachern argues in *Big Green Purse*, the best way to fight the industries that pollute the planet, thereby changing the marketplace forever, is to mobilize the most powerful consumer force in the world-women. MacEachern's message is simple but revolutionary. If women harness the "power of their purse" and intentionally shift their spending money to commodities that have the greatest environmental benefit, they can

create a cleaner, greener world. Spirited and informative, this book: - targets twenty commodities-cars, cosmetics, coffee, food, paper products, appliances, cleansers, and more-where women's dollars can make a dramatic difference; - provides easy-to-follow guidelines and lists so women can choose the greenest option regardless of what they're buying, along with recommended companies they should support; - encourages women to spend wisely by explaining what's worth the premium price some green products cost, what's not, and when they shouldn't spend money at all; and - differentiates between products that are actually "green" and those that are simply marketed as "ecofriendly." Whether readers want to start with small changes or are ready to devote the majority of their budget to green products, MacEachern offers concrete and immediate ways that women can take action and make a difference. Empowering and enlightening, *Big Green Purse* will become the "green shopping bible" for women everywhere who are asking, "What can I do?"

Ben and the Art of Lawnmower Maintenance Dec 23 2022 The average American spends 70 hours per year, the equivalent of nearly two full work weeks, on lawn and garden care. For some, lawn care is an onerous task, grudgingly accomplished, and for others it is a source of personal pride and accomplishment. Over the past four decades, author John B. Marek has variously and intermittently fallen into both camps. In *Ben and the Art of Lawnmower Maintenance*, he weaves humorous personal anecdotes with fascinating historical facts, and recounts his father's homespun wisdom alongside insight gained from his own suburban homesteading experiences.

It Begins It Ends It Ends It Begins Aug 19 2022 *It Begins, It Ends, It Ends, It Begins* is a collection of sketches describing some of the author, Judy Richter's, memories of life on and off her one-hundred-acre farm in Bedford, New York. The farm is a "still point in a turning world" for her family and friends. Though many now are grown and gone, they keep in touch on the Internet and Facebook! Having been actively involved in the sport for nearly half a century, Richter has seen many changes, but she feels "the more things change, the more they remain the same," thanks to the abiding generosity of the horses. To spend her life in the company of these noble creatures is indeed a blessing.

From Curlers to Chainsaws Jun 05 2021 The twenty-three

distinguished writers included in *From Curlers to Chainsaws: Women and Their Machines* invite machines into their lives and onto the page. In every room and landscape these writers occupy, gadgets that both stir and stymie may be found: a Singer sewing machine, a stove, a gun, a vibrator, a prosthetic limb, a tractor, a Dodge Dart, a microphone, a smartphone, a stapler, a No. 1 pencil and, of course, a curling iron and a chainsaw. *From Curlers to Chainsaws* is a groundbreaking collection of lyrical and illuminating essays about the serious, silly, seductive, and sometimes sorrowful relationships between women and their machines. This collection explores in depth objects we sometimes take for granted, focusing not only on their functions but also on their powers to inform identity. For each writer, the device moves beyond the functional to become a symbolic extension of the writer's own mind—altering and deepening each woman's concept of herself.

Cheap May 16 2022 A myth-shattering investigation of the true cost of

America's passion for finding a better bargain From the shuttered factories of the Rust Belt to the strip malls of the Sun Belt—and almost everywhere in between—America has been transformed by its relentless fixation on low price. This pervasive yet little-examined obsession with bargains is arguably the most powerful and devastating market force of our time, having fueled an excess of consumerism that blights our landscapes, escalates personal debt, lowers our standard of living, and even skews of our concept of time. Spotlighting the peculiar forces that drove Americans away from quality, durability, and craftsmanship and towards quantity, quantity, and more quantity, Ellen Ruppel Shell traces the rise of the bargain through our current big-box profusion to expose the astronomically high cost of cheap.
