This volume emerges from a partnership between the American Federation of Teachers and the Learning Research and Development Center at the University of Pittsburgh. The partnership brought together researchers and expert teachers for intensive dialogue sessions focusing on what each community knows about effective mathematical learning and instruction. The chapters deal with the research on, and conceptual analysis of, specific arithmetic topics (addition, subtraction, multiplication, division, decimals, and fractions) or with overarching themes that pervade the early curriculum and constitute the links with the more advanced topics of mathematics (intuition, number sense, and estimation). Serving as a link between the communities of cognitive researchers and mathematics educators, the book capitalizes on the recent research successes of cognitive science and reviews the literature of the math education community as well. All you need to run a modern home Hundreds of expert time-and-money-saving ideas A must-have for every household This indispensable manual is a must-have for every home. The Art of Good Housekeeping is packed with tried and tested answers to every household query, from how often you should clean your duvet, to how to maintain the exterior of your house. Written by a team of experts from the Good Housekeeping Institute, it tells you everything you need to run a home in the most efficient, safe, cost-effective and environmentally-friendly way. Chapters include Buying a Home, Equipping your Home, Care and Maintenance, Cleaning, and Safety and Security. Topics covered include everyday chores, appliances, planning rooms, buying furniture, legal matters, mortgages, pipes and drains,

and gas and electricity. With easy-to-follow, practical illustrations throughout, this book packs a wealth of expertise into one indispensable volume so you can run your home without running out of steam. This text provides a six-week programme of skincare that helps reduce dimpling, keep cells plumped with water for smooth-looking skin, and help stretch marks vanish. The author's approach incorporates nutrition, lifestyle changes, and topical treatments. The first Solutions Focus field book. This collection of articles from the AMED journal "Organisations & People" describes international experience of applying the positive power of Solutions Focus and Appreciative Inquiry to Coaching, Team Remotivation, Supervision, Performance Management, Strategic Planning, Feedback, Organisation Development, Staff Appraisal, Competence Management, and Community Development. Contributors include Louis Cauffman, Sheila McNamee, Paul Z Jackson, Peter Szabo, Gunter Lueger, Harry Norman and others from the UK, across Europe and the USA. This collection gives you new applications and ideas about staying pragmatically positive and incisively simple in many organisational contexts. Includes a new and expanded introduction by Mark McKergow comparing positive psychology, Appreciative Inquiry and Solutions Focus. In THE BLOOD SUGAR SOLUTION, Dr. Mark Hyman reveals that the secret solution to losing weight and preventing not just diabetes but also heart disease, stroke, dementia, and cancer is balanced insulin levels. Dr. Hyman describes the seven keys to achieving wellness-nutrition, hormones, inflammation, digestion, detoxification, energy metabolism, and a calm mind-and explains his revolutionary six-week healthy-living program. With advice on diet, green living, supplements and medication, exercise, and personalizing the plan for optimal results, the book also teaches readers how to maintain lifelong health. Groundbreaking and timely, THE BLOOD SUGAR SOLUTION is the fastest way to lose weight, prevent disease, and feel better than ever. In THE BLOOD SUGAR SOLUTION COOKBOOK,

Dr. Mark Hyman shares recipes that support the BLOOD SUGAR SOLUTION lifestyle. In 1900, only two percent of meals in America were eaten outside the home; now it is over fifty percent. Dr. Hyman calls for readers to take back their health by taking back their kitchens. The major culprit of diabetes, obesity and heart disease is insulin imbalance. Following Dr. Hyman's scientifically based program for rebalancing insulin and blood sugar levels, this cookbook presents 175 delectable recipes that are free of allergens and harmful inflammatory ingredients. Readers will exchange toxic factory-made foods for nutritious and easy-to-make dishes such as Chicken Satay with Peanut Sauce, Mexican Shrimp Ceviche, Tuscan Zucchini Soup, Raspberry Banana Cream Pie Smoothie, Chocolate Nut Cake, and more. THE BLOOD SUGAR SOLUTION COOKBOOK will illuminate the inner nutritionist and chef in every reader. The Learning Solution is a practical guide for parents who want to improve their child's academic situation in school. It is written by a practicing school psychologist to give parents effective strategies for making the most helpful and realistic choices for children experiencing difficulty with their schoolwork. The Learning Solution will provide parents with the skills needed to negotiate the education maze and teach them how to advocate for their child. Parents will also learn how build an effective cooperative relationship with their child at home. The Learning Solution has been updated to include a chapter on mental health issues currently impacting on children's learning experiences in school. In addition, current information is provided on the medications used in the treatment of Attention Deficit Hyperactivity Disorder. Please note: This is a companion version & not the original book. Sample Book Insights: #1 America is a fat nation, and we are failing to solve our big fat problem. Almost 70 percent of Americans are overweight, and one in two has diabetes, which is the metabolic features of a pre-diabetic obese person. #2 The answer is simple: addiction. We are a nation of food addicts. #3 The science of food

addiction is becoming more and more clear, and a study published in the American Journal of Clinical Nutrition proved that higher-sugar, higher-glycemic foods are addictive in the same way as cocaine and heroin. #4 Food addiction is real, and it is the root cause of why so many people are overweight and sick. In simple stages, this business book charts the creative path to achievement, telling readers how to manage themselves and others and how to be successful. The author offers suggestions on how to choose life goals and how to negotiate to win - regardless of age, sex or circumstances. Psychoanalyst Carl Jung said that a life without meaning is un-lived. Today our secular worship of the material, the superficial, and the instantly gratifying is as powerful as any ancient idol worship. While our problems appear to be the enemy, they are really our secret allies, and by wrestling with them we become whole. Weiner and Simmons show us how to rely on the natural, spontaneous images that emerge from our dreams, daily life, relationship problems, and symptoms as the seeds of our own healing. We must recognize that our problems have not been randomly inflicted on us; they have a purpose, to act as guideposts pointing the way toward healing and wholeness. Book jacket. Clean everything in your home from your clothes and sheets to your shower curtain, vents—even the inside of your washing machine—with this simple short-cuts using all-natural cleaning products. Did you know you should be cleaning your sponge on a weekly basis by putting it in the microwave for just 90 seconds? Or that you could use a rubber glove to clean up pet hair instead of a lint brush? Or that wax paper can be used to make your faucets and sink fixtures shine instead of a chemical polish? Avoid long lists of mysterious chemicals and skip buying multiple cleaning products and get back to basics and use simple, all-natural solutions that are safe, inexpensive, and effective. Take control of your cleaning to-do list with these easy, natural cleaning methods. With this book, you'll learn to: —Use vinegar to clean out a washing machine that's

starting to smell —Mix lemon juice and salt to really clean out the cracks in your cutting board where food can get stuck —Rub chalk onto a greasy stain to help absorb extra oils before washing And much more! Organized by cleaning project, you'll be able to find the perfect easy solution for all your cleaning jobs, however large or small, with this handy guide! According to Pastor Mark Batterson in his book, *The Circle Maker*, 'Drawing prayer circles around our dreams isn't just a mechanism whereby we accomplish great things for God. It's a mechanism whereby God accomplishes great things in us.' Do you ever sense that there's far more to prayer, and to God's vision for your life, than what you're experiencing? It's time you learned from the legend of Honi the Circle Maker---a man bold enough to draw a circle in the sand and not budge from inside it until God answered his prayers for his people. What impossibly big dream is God calling you to draw a prayer circle around? In this powerful booklet, excerpted from *THE CIRCLE MAKER*, Batterson helps you uncover your heart's deepest desires and God-given dreams and unleash them through the kind of audacious prayer that God delights to answer. This innovative handbook bridges the gap between the colorectal surgeon, the stoma nurse and the dermatologist. It addresses the questions of what pathology is involved, what can be done by nurses, when to refer to a dermatologist, and what can be done by a dermatologist. Now in its second edition, the book has been revised throughout and contains *ADD: The 20-Hour Solution* explains how EEG biofeedback (neurofeedback) addresses the underlying problem and characteristics of ADD and ADHD, so that symptoms resolve and tangible improvement results. This book describes the method by which we can improve the brain's ability to pay attention and regulate its behavior. It explains the self-healing capacities of the human brain and how it can learn or re-learn the self-regulatory mechanisms that are basic to its normal design and function. This book shows: .What ADD really is and how the brain maintains self-regulation.How

and why EEG biofeedback (neurofeedback) helps people with ADD. What parents can do to get their child on-track to healthy adjustment and development. How to talk to doctors, therapists, teachers, and others about ADD. Good assessment procedures and how they contribute to effective treatment. How self-control, personal choice, and responsibility for one's behavior relate to scientific principles of brain functioning. How to find appropriate resources and get started with neurotherapy. The book also lists specific up-to-date resources on where to find information on EEG neurofeedback and how to find providers throughout the world.

This volume is a republication and expansion of the much-loved Wohascum County Problem Book, published in 1993. The original 130 problems have been retained and supplemented by an additional 78 problems. The puzzles contained within, which are accessible but never routine, have been specially

selected for their mathematical appeal, and detailed solutions are provided. The reader will encounter puzzles involving calculus, algebra, discrete mathematics, geometry and number theory, and the volume includes an appendix identifying the prerequisite knowledge for each problem. A second appendix organises the problems by subject matter so that readers can focus their attention on particular types of problems if they wish. This collection will provide enjoyment for seasoned problem solvers and for those who wish to hone their skills. In this easy to read, revised and expanded edition of *Exit the Maze*, Dr. Donna Marks makes the revolutionary claim that there is only one addiction with many faces, and the key to overcoming addiction is self-love. Millions of lives are lost to addiction every year, causing more direct and indirect deaths than any other illness. In a world where many things are uncertain, we do know this: There are many kinds of addiction, and in spite of treatment and everything else we're doing, addiction is only increasing. Dr. Donna Marks, a renowned psychotherapist, addictions counselor, and teacher of *A Course in Miracles* for more than thirty years, merges her professional experience and her own personal history of substance dependency to offer a single revolutionary solution to all addictions in this expanded and revised edition of *Exit the Maze*. No matter what someone is addicted to—alcohol, prescription or illegal drugs, smoking, working, gambling, and so forth—loving yourself is the key to recovery. This doesn't mean the road is easy or a few acts of self-care will do the trick; the journey to true self-love includes delving deep into your past trauma to understand where your addiction began, addressing those fear-based traumas with compassion and forgiveness, exchanging bad habits with beneficial ones, and staying committed to the recovery process. Allow love to guide you through the maze of addiction and back to living your best life. The revolutionary yet radical alternative—the solutions-focused approach—to discovering what works at work. A "New York Times"-bestselling author

reveals that problems in the brain don't start there, and explains how detoxifying and fortifying the body can maximize brain function, alleviate depression, and improve memory--without drugs. Assessing and managing violence places a heavy burden on practitioners in social work, criminal justice and health care settings. Milner and Myers examine current explanatory theories of violence and how these influence assessment and intervention. Using case studies and a variety of agency documents, the strengths and weaknesses of these approaches are weighed up and a framework is presented to help workers looking to effect positive change. Petroleum and natural gas still remain the single biggest resource for energy on earth. Even as alternative and renewable sources are developed, petroleum and natural gas continue to be, by far, the most used and, if engineered properly, the most cost-effective and efficient, source of energy on the planet. Drilling engineering is one of the most important links in the energy chain, being, after all, the science of getting the resources out of the ground for processing. Without drilling engineering, there would be no gasoline, jet fuel, and the myriad of other "have to have" products that people use all over the world every day. Following up on their previous books, also available from Wiley-Scrivener, the authors, two of the most well-respected, prolific, and progressive drilling engineers in the industry, offer this groundbreaking volume. They cover the basic tenets of drilling engineering, the most common problems that the drilling engineer faces day to day, and cutting-edge new technology and processes through their unique lens. Written to reflect the new, changing world that we live in, this fascinating new volume offers a treasure of knowledge for the veteran engineer, new hire, or student. This book is an excellent resource for petroleum engineering students, reservoir engineers, supervisors & managers, researchers and environmental engineers for planning every aspect of rig operations in the most sustainable, environmentally responsible manner, using the most up-to-date technological
