The rulers of the overseas empires summoned the Society of Jesus to evangelize their new subjects in the 'New World' which Spain and Portugal shared; this book is about how two different missions, in China and Peru, evolved in the early modern world. From a European perspective, this book is about the way Christianity expanded in the early modern period, craving universalism. In China, Matteo Ricci was so impressed by the influence that the scholar-officials were able to exert on the Ming Emperor himself that he likened them to the philosopher-kings of Plato's Republic. The Jesuits in China were in the hands of the scholar-officials, with the Emperor at the apex, who had the power to decide whether they could stay or not. Meanwhile, in Peru, the Society of Jesus was required to impose Tridentine Catholicism by Philip II, independently of Rome, a task that entailed compliance with the colonial authorities' demands. This book explores how leading Jesuits, Matteo Ricci (1552-1610) in China and José de Acosta (1540-1600) in Peru, envisioned mission projects and reflected them on the catechisms they both composed, with a remarkable power of endurance. It offers a reflection on how the Jesuits conceived and assessed these mission spaces, in which their keen political acumen and a certain taste for power unfolded, playing key roles in envisioning new doctrinal directions and reflecting them in their doctrinal texts. Management Information Systems provides comprehensive and integrative coverage of essential new technologies, information system applications, and their impact on business models and managerial decision-making in an exciting and interactive manner. The twelfth edition focuses on the major changes that have been made in information technology over the past two years, and includes new opening, closing, and Interactive Session cases. A beautiful female college student has been stoned to death and buried up to her neck, her body left bloody and exposed. The brutality of the crime shakes the whole country, but despite his own recent trauma – and the fact that his ex-wife's new boyfriend is also on the case – Henning is given the assignment. Dirigido a los planificadores del futuro, aquellos que están construyendo o construirán los cimientos de la sociedad de aquí a 20 años, momento en el que se graduarán los niños y niñas que hoy están empezando el jardín de infantes. Su propósito es repensar la política educativa. Para eso, propone caminos, numerosos caminos. La primera parte estudia las condiciones necesarias para que la política educativa aumente sus capacidades de impacto y aproveche su amplio, pero no ilimitado, margen de acción. La segunda parte brinda un listado de 90 opciones de política educativa para analizar en cada ministerio de educación y en todos los espacios de debate democrático relacionados con el futuro de la educación. Las 90 opciones se han ordenado en cuatro capítulos: políticas de inclusión y justicia distributiva, políticas docentes, políticas pedagógicas y curriculares, y políticas con uso intensivo de las nuevas tecnologías. En estas páginas se presenta una síntesis de más de siete años de trabajo en el proyecto Nexos de Política Educativa, desarrollado por el programa de Educación de CIPPEC. Este ha sido uno de los mayores laboratorios basado en las esencias e ideas de la política educativa, realizado mediante visitas y trabajos en casi todas las provincias argentinas, el estudio de los procesos de mejora sistémica en todo el mundo y la recopilación de las nuevas discusiones internacionales.
