The Foundation Stage Teacher in Action Aug 08 2021 A fully revised edition of the author's best selling book, this resource now includes an extended section on leadership, and managing the foundation stage.

Science 5-11 Jan 01 2021 This third edition of the bestselling textbook Science 5–11 has been fully updated to provide a synthesis of research and best practice in teaching and learning that focuses on successful ways to engage and motivate young scientists. Responding to the new curriculum, particularly 'Working Scientifically', this edition now includes: New sections on whole-school assessment, mentoring, transitions and a topics-based approach. Reference to the 'big ideas' of biology, chemistry and physics with chapters clearly related to this new subject structure. Updated tables of progression in each topic area and reference to cross-curricular contexts. New self-assessment questions for teachers, the option for higher-level thinking and further reading. An updated chapter on subject leadership with an increasing emphasis on monitoring progress. Bringing together research undertaken from a range of activities in the field, this book forms a comprehensive and clear guide, outlining the subject knowledge that a teacher needs, the curriculum requirements and the best ways to go about teaching. A practical guide ideal for students, trainees, mentors and other practising teachers, the book provides information on appropriate science topics for Key Stage 1 and 2.

Driven by Data Feb 20 2020 Offers a practical guide for improving schools dramatically that will enable all students from all backgrounds to achieve at high levels. Includes assessment forms, an index, and a DVD.

The Foundation Stage Teacher in Action May 05 2021 'The book takes a deeper insight into the role of the practitioner and provides invaluable information' – Nursery Education 'I think the book would be good value for money for anyone working within a foundation stage team' - Foundation Stage File 'The Foundation Stage Teacher in Action is one of the definitive texts on the foundation stage, in which Margaret Edgington deals with the realities of practice based on theory and early years principles. It

is immensely practical and easy to read, and while it deserves to be read from cover to cover, this New Edition is particularly accessible for those who want to dip in or who need to refer to a specific chapter' - Early Education `If you are new to the Foundation Stage, have been working in the Early Years for a few years, or for longer than you care to remember, if you have responsibility for employing staff for the Foundation Stage within your setting or if you work in a different key stage but have co-ordinator responsibility for the Foundation Stage, you should buy this book!' - National Campaign for Nursery Education Newsletter 'This is classic in the world of nursery education and this Third Edition, with its new title reflecting the changes in that world, is as exciting and challenging as earlier versions. Margaret Edgington's campaigning zeal is undiminished as she asserts the prime need for specialist teachers to work with young children in the Foundation Stage and backs this claim with authoritative research references. This is a strong, passionate authoritative text and I shall keep it close to hand for my own work' - Marian Whitehead, Nursery World `This is the third generation of books dealing with the pedagogy of the early years from Margaret Edgington, the first two being her editions of *The Nursery Teacher in Action*, originally published under the name Margaret Lally. The changes that have come about in early years education - notably the introduction of the Foundation Stage with its accompanying curriculum guidance and assessment requirements - meant that many early years books have needed updating. This Third Edition is more than an update; it represents some very hard thinking about what practitioners now need to know to be effective, and presents this by revisiting the original book's themes' - Escalate `Paul Chapman Publishing and Margaret Edgington have pulled off a real gem of a book, with updated sections (thank you for the Forest school stuff, for example!) and fresh insights. The hard work has really paid off - thanks so much' - Nick Swarbrick, Oxford Brookes University `This Third Edition brings a broader perspective to the early years world. Margaret's years of experience as a practitioner and consultant in the field are evident and she manages to blend good practice, policy and theoretical aspects, bringing an astute yet sensitive approach to the early years practitioners' varied experiences and qualifications. The book reaches not only those who are starting on their careers as early years practitioners, but also those who have been there a long time and witnessed many, often bewildering changes, where their beliefs and practice have been challenged. The new edition should be essential reading not only for those working in the field, whatever stage in their careers, but also for anyone who seeks to understand small children and support them in the best way possible' - Angela D Nurse, Head of Department of Childhood Studies, Canterbury Christ Church University This is a fully revised and updated edition of the author's best selling book *The Nursery Teacher in Action*, Second Edition. This book now includes an extended section on leadership, on managing the foundation stage and involving the team in monitoring and evaluating foundation stage practice. Curriculum, planning and assessment now reflect the new statutory guidance on the Foundation Stage Curriculum and Profile. The author reviews the implementation of the Foundation Stage and the Profile - positive developments and areas which are still proving challenging. New material is included on the broadening role of the foundation stage teacher in integrated, multi-disciplinary services and providing support in other settings. The book has been updated to include recent findings from Effective Pedagogy projects and other research on learning styles. *The Foundation Stage Teacher* is essential reading for all early years students and practitioners; early years course tutors, and teachers new to working with 3-5 year olds and also primary headteachers.

Oxford Reading Tree: Stage 5: More Storybooks B A New Classroom Feb 02 2021 The teaching notes for the Oxford Reading Tree Biff, Chip and Kipper books are full of practical suggestions for using the storybooks, saving you hours of preparation time. They have been updated in line with the simple view of reading and the renewed Primary Framework for Literacy. They now include guidance for group/guided reading, comprehension and word recognition, and assessment. These replace the existing Teaching Notes and Guided Reading Cards. The storybooks are unchanged, but notes for parents/carers and teaching assistants have been added to the inside covers. These notes replace the existing Take-Home Cards.
