Medieval Merchant

Venturers Apr 04 2021 First published in 1967, this superb collection of essays on trade in the Middle Ages has been a major contribution to modern medieval studies. Professor Carus-Wilson examines: * fifteenth-century Bristol * trade with Iceland * the Merchant Adventurers of London * the thirteenth-century cloth industry (with its highly developed capitalist system) * the export of English woollen cloth * the wine trade. Each paper is firmly rooted in original research and contemporary sources such as customs returns and company minutes, and, in addition, her expose of the dubious accuracy of Aulnage accounts is widely recognised as a classic.

Merchant organisation was a

global phenomenon in the early modern era, and in the growing contacts between peoples and cultures, merchants may be seen as privileged intermediaries. This collection is unique in essaying a truly global coverage of mercantile activities, from the Wangara of the Central Sudan, Mississippi and Huron Indians, to the role of the Jews, the Muslim merchants of Anatolia, to the social structure of the mercantile classes in early modern England. The histories of merchant communities are not their histories alone, but also the histories of assumptions concerning their contexts. From the comparative perspective adopted here, it emerges that in markets where Western European merchants vied for place with competitors from the Near East, South Asia or East Asia, they were very often unsuccessful.

A Russian Merchant's Tale
Oct 10 2021 Based on the rare
diary of an 18th-century
Russian provincial merchant, *A
Russian Merchant's Tale*
presents a revealing portrait of
Russia's little-known
commercial class. By recording
his daily contacts with a wide
array of individuals from lords
to laborers for more than 40
years, Ivan Alekseevich
Tolchënov opened a window
onto the education, work, birth,
death, marriage, business,
civic, holiday, and religious
practices of a social group
about which little has been
known. Using the tools of
microhistory to interpret the
diary, David L. Ransel vividly
brings to life Tolchënov's self-
construction, his relations with
family and society, and his
entire world of aspirations,
achievements, and failures.
Challenging prevailing

stereotypes of Russian merchants as tradition-bound and narrow-minded, *A Russian Merchant's Tale* offers important new insights into the social history of imperial Russia.

The Merchant of Venice Oct 30 2020 For this updated edition of one of Shakespeare's most problematic plays, Tom Lockwood has added a new introductory section on the latest scholarly trends, performance and adaptation practices which have occurred over the last two decades. Investigating the latest critical frames through which the play has been interpreted, the updated introduction also focuses on recent international performances on stage and screen (including Al Pacino's performances on film and in Daniel Sullivan's production in New York, the Habima National Theatre's production for the Globe to Globe Festival, Jonathan Munby's touring production for the Globe performed in London, New York and Venice, and Rupert Goold's production for the

Royal Shakespeare Company). Finally, new forms of adaptation are considered: a performance transposed to the different generic mode of a New York auction room, and the remaking of the play in Howard Jacobson's 2016 novel, *Shylock Is My Name*.
