The Allure of the Automobile Jan 21 2020 The Allure of the Automobile presents eighteen of the world's rarest and most brilliantly conceived cars from 1930 to the mid-1960s, including masterpieces from Bugatti, Dusenbergl, Delage, Porsche, Mercedes-Benz, Jaguar, and Ferrari. Created for the privileged few (and in some cases previously owned by Clark Gable and Steve McQueen), these luxurious, custom built automobiles embodied speed, style, and elegance; they influenced and were influenced by contemporary art, architecture, fashion, and design. Many of the featured automobiles are one of a kind or were built largely by hand and in small numbers. The racing motorcar is a potent symbol of twentieth century modernity, embodying speed, style, elegance, and good design. Whether a practical tool or part of a celluloid fantasy, the automobile remains a powerful symbol embedded in our collective cultural consciousness. This book contains an illustrated text with period

photographs of the cars, exploring the evolution of the automobile from the opulent and luxurious French custom coachwork models of the early 1930s to post-World War II triumphs of German engineering to the supremacy of Italian sport-car design in the second half of the century. All in Good Time Nov 11 2021 All in Good Time is the remarkable story of George Daniels (1926-2011), the master craftsman, who was born into poverty but raised himself to become the greatest watchmaker of the twentieth century. Daniels stands alone in modern times as the inventor of the revolutionary co-axial escapement, the first substantial advance in portable mechanical timekeeping over the lever escapement, which has dominated ever since its invention in 1759. Daniels's love of mechanics embraced not only the minute, however - he was also a passionate collector and driver of historic motorcars. This revised and expanded edition of his autobiography also contains a new section that illustrates and discusses over thirty of the pocket and wrist-watches Daniels himself made over the years. Witness here the triumph of intelligence, ingenuity, matchless skill and singularity of purpose over the most unpromising of beginnings.

Prevention and Management of Dyslipidemia Nov 30 2020 Dyslipidemia has intricate physiopathology, often due to genetic, diet and lifestyle factors. It has various adverse impacts, especially in the development of chronic non-communicable diseases. The growing cases of obesity, changes in lifestyle and environmental factors will make dyslipidemia a global medical and public health hazard, not only for adults but also for children. Important ethnic differences exist due to the

prevalence and types of lipid ailment, while elevated serum total and LDL-cholesterol are the main concern in the developed countries, in other countries hypertriglyceridemia and low HDL-cholesterol are more widespread. Various experimental and clinical researches are going on related to the basic mechanisms and treatment of dyslipidemia. This book will deliver an overview of dyslipidemia from distinct facets of prevention, health hazards and treatment.

Cowboy Heat Jun 25 2020 They may ride off into the sunset, but cowboys never go out of style. These

manly men embody the fiercely independent, earthy alpha male and hero who isn't afraid to show the gentle, nurturing side of his complex nature when he's faced with a woman in need. Even when he's coated with dust from riding behind a herd of cattle or up to his knees in mud freeing a calf from a wallow, this stud still generates a lot of Cowboy Heat. Delilah Devlin's Cowboy Lust was a sensation, hitting the top ten of romance books and generating a river of praise. Award-winning Devlin is back on the ranch with stories of rugged romantics, rough riders, and rope wranglers sure to satisfy the reader who craves the idea of that gruff, romantic hero, a man of few words but many moves. Cowboy Heat sits tall in the saddle, winning hearts and spurring readers to new heights of happiness.

Million-Dollar Muscle Cars Aug 28 2020
About the book: In the 1960s and 1970s American automakers produced millions of muscle cars: high-performance cars more adept at competition than transportation. The baby boom generation snapped up these cars

and proceeded to use them as intended, drag and street racing the cars until there was nothing left of them. No longer minimum-wage high schoolers, today's boomers enjoy more disposable income than any generation in history. And many of them are spending that income on highly collectible muscle cars. Because so few muscle cars survived the abuse of young drivers back in the day, muscle car prices have skyrocketed, with mundane muscle cars commanding six-figure prices and the most significant muscle cars surpassing the million-dollar mark. Respected muscle car expert Colin Comer and top photographer David Newhardt tell the story of each of these rarest of rare cars in Million-Dollar Muscle Cars, the only book dedicated to these top-flight cars. Practical Antenna Design for Wireless Products Jul 19 2022 This comprehensive resource covers both antenna fundamentals and practical implementation strategies, presenting antenna design with optimum performance in actual products and systems. The book helps readers bridge the gap between electromagnetic theory and its application in the design of practical antennas in real products. Practical implementation strategies in products and systems will be addressed in order to design

antennas in the context of actual product environments, including PCB layout, component placement and casing design. Practical design examples on wearable electronic products are presented with a systematic approach to designing antennas for actual products. The book introduces antenna fundamentals to provide the basic concepts and necessary mathematics on electromagnetic analysis, followed by advanced antenna elements. The concept of electromagnetic simulation is presented. The advantages and disadvantages of different numerical methods in antenna modeling are also discussed. Several commercial antenna design and simulation tools are introduced, allowing hands-on practice of antenna modeling and simulation.

Art of the Hot Rod Aug 08 2021 The best hot rods are art on four wheels, and this book, a collection of studio photography of the cars produced by the world's top hot-rod builders, is nothing less than a gallery of the best of American hot rodding.

Profiling top builders like Pete Chapouris, Roy Brizio, Vern Tardel, Troy Trepanier, and 15 others and featuring studio portraits of their most outstanding custom creations, this book celebrates the uniquely American marriage of mechanical know-how to an inspired sense of style and design. Built from the ground up, pieced together from salvaged parts, rebuilt with classic looks and futuristic technology—these are automotive works of art, as powerful on the page as they are on the street. Through the stunning portraiture of master photographer Peter Harholdt, Art of the Hot Rod captures these magnificent creations as never seen before.

Exhibit A Jun 06 2021 Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his generation but his

reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published. Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences. Fashion photography became an arena for his personal obsessions. The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously. Despite his intense eroticism, subversion and, as Cecil Beaton described, 'his grotesque little gamines', Beaton referred to him in 1975 as 'unquestionably the most interesting fashion photographer in Paris today'. His work was said to have represented 'the look of an era -glamorous, hard-edged, cleverly spiced with vulgarity.. .rich with implied narratives and strong erotic undercurrents'
