to Speak Spanish with Confidence is a remarkable work written by David E Stevens III, who has been learning and teaching new languages since 2001. Since then he has helped thousands of people learn how to speak languages, especially English and Spanish, and has done a lot of spectacular work in Colorado to bridge the gap between these two communities by breaking down the cultural and language barriers that exist. As director of The Language School, Denver's top rated school to learn how to speak both Spanish and English, he has developed a fun, practical, and powerful way to learn how to speak a new language through his "Let's Start Talking" approach to learning, which focuses first and foremost on conversation and getting people to talk. His series of textbooks, including Let's Start Talking, Inglés Fácil y Divertido, and English Easy and Fun are being used all across the country and have been well received. This new work, 5 Easy Steps to Speak Spanish with Confidence, aims to teach people how to study Spanish in an easy, practical, and powerful way that guarantees people the capability to become conversational in 3 months or less. By following the steps included in this book, you will learn the 5 principle techniques that fluent Spanish students have used to become conversational and ultimately fluent. GRADES PK-1/ESL/SPANISH: With age-appropriate activities, this beginning Spanish workbook helps children build knowledge and skills for a solid foundation in Spanish.

Jalen Waltman's Spanish 3A is for first semester level 3 high school Spanish, and 3B is for second semester level 3 high school Spanish. The focus in Spanish 3 is to get students speaking Spanish more conversationally, so each lesson includes a daily guided conversation topic (question) for partners and/or groups to discuss. Another goal in level 3 is to get students started doing more expository Spanish writing, so 3A contains 6 "journal prompts" on topics such as school plans and friendships, and 3B has 4 journal prompts on topics such as art and the environment. At this level, students start preparing more explicitly for the speaking and writing demands

of AP Spanish Language and Culture should they choose to go that far in their Spanish program. Spanish 3A and B lessons teach sets of vocab strings with skits just like levels 1 and 2 do, and include a pretty heavy load of grammar topics. 3A reviews pronouns, present tense, ser and estar, preterit and imperfect, and present progressive; it introduces present subjunctive, future, and conditional, past progressive, and present perfect. 3B introduces past perfect, reviews and digs a little deeper into preterit and imperfect as well as the present subjunctive, then reviews future and conditional, and if you and your students are up for it, ends with past subjunctive. (It's okay if you don't get that far in the grammar lessons in 3B.) The lessons include a complete vocab list by semester for students, a grammar topics list by semester for students, daily warm-up quizzes, skit scripts, page-long Spanish readings recycling the vocab/grammar content of the skit, daily conversation topics and sentence-starters for responses, writing activities, grammar topics (you use your own textbook materials or grammar workbooks and worksheets to go with the topic) and grammar homework assignments, two "mini" tests per semester plus midterm and final exam (plus practice tests for each.) The lessons are designed so that once you have your copies made, you can just flip the pages and teach. All masters are included and ready to copy, including sub plans. process of transforming education in Spain, Inmaculada Egido has presents a detailed and encyclopedic description of events. Against historic background, this book discusses the impact of recent and current change, a process which has transformed education from a very centralised to a decentralised and democratic system. As the author indicates :In the last three decades education in Spain has been characterised by a profound transformation. Practically, there is no aspect of the educational system that has not been modified during this period, including both the administration and government of education and the structure and content of educational levels, the education financing and the training and work conditions of teachers... despite the delay in the starting point the achievements of the Spanish educational system in the last years are undeniable'. The autonomy of schools receives much attention not the least because of the changes which affect school governance, the participation of parents and the role of the school principal. The author concludes that, despite democratisation, there remains the need to further this process in relation to the internal functioning of schools and especially in relation to the actual participation of parents and pupils. PARTIAL CONTENTS: Acknowledgements; The Spanish Educational System; Historical Overview of the Spanish Educational System; Key Features of the Educational System; Legislation, Principles and Administration of the Educational

System; Structure of the Spanish Educational System; Teaching Staff; An Overview of the Spanish Educational System: Light and Shade; School Management: Meeting the Challenges of the New Millennium. "Attention audio and kinesthetic learners! Here is a Spanish curriculum made just for you! Using a method called Total Physical Response (TPR) students are taught using videos and reactive body movement as they repeat & respond to the instructor. Each lesson has three parts: vocabulary, actions, and a comprehension check. The Lesson Book includes a thorough explanation of the pedagogy (methodology) and a script from the video lessons. As a parent/teacher you really need to understand the why here as it is not a traditional course. You are told step by step how to present the twenty-four lessons (87pp.) If you are comfortable with the language, you could use this book to present the lessons yourself, if not, you can use this book to answer student questions about the lessons in the videos. The Lesson Book is a necessary component of the program. Excelerate Spanish uses a non-reproducible Workbook for each student (105pp). This holds extension activities from the lessons and is not meant to be used without them. Activities include a variety of puzzles, games, mini-books, scrambled stories, close passages, grammar practice, picture definitions, & more. Depending on your goals with your student(s) you may or may not use this item. The Answer Key (77pp.) includes answers to both the Workbook and

Lesson Book. Very young learners may use just the videos and become familiar with the vocabulary & sounds of the language. Mid/upper elementary students can do some writing, so I like the Workbooks at this age for reinforcing the audio/physical lessons. The Lesson DVDs are not flashy. They show a teacher and her students modeling the lesson. As the teacher asks questions, students respond to her in Spanish or move/motion as your own student(s) will do. This would work well in a homeschool setting as well as in a co-op or traditional classroom. A good, user-friendly option to introduce elementary to middle school students to Spanish, especially great for those "wiggly" learners or those who struggle with reading, since they are not learning directly from a book. All books are soft cover."--" -- Publisher description. The purpose of this explanatory multi-case study was to determine how an International Spanish Academy (ISA) bilingual education model affects motivation for students to take four years of Spanish classes instead of the customary two years. The study involved three groups of Georgia public high school students currently enrolled in Spanish II classes in schools that did not include an ISA program. There is a growing trend across the United States to drop the world language requirement for high school graduation (National Council of State Supervisors for Languages (NCSSFL), 2016). Because of this national trend, a phenomenon exists among Georgia high school students not to

take Spanish classes for four years (G. Barfield, personal communication, January 3, 2016). The work of social psychologist and second language motivation expert Robert Gardner (2006) guided this study. His socio-educational model addressed various factors that influence a person's motivation to learn a second language, and these factors influenced this study's research question: How does an ISA bilingual program affect the motivation for students to take four years of Spanish classes instead of the customary two years. Three specific groups of Georgia public high school Spanish II students were surveyed, and a select sample of the respondents of the survey questionnaire at each school participated in focus groups to determine their perspective. Data collected from this study were analyzed through a process of transcription, coding, and theme identification using QDA Miner Lite. The study found that the participants who could see the future benefits of participating in an ISA program were motivated and the ones who could not see the future benefits of the program were not motivated students to take four years of Spanish instead of the customary two years. Excerpt from Spanish in the High Schools: A Handbook of Methods With Special Reference to the Junior High Schools Almost exactly coincident with this renaissance of Spanish has been the movement to reorganize our school system so as to provide for the Junior High School, known also as the Intermediate School. In general, as is well known, this reorganization provides for Six years of the elementary school course, three years of Junior High School work

(seventh, eighth, and ninth years), and, finally, three years In the Senior High School. There are, of course, many variations of this scheme advocated and practiced, but In any case, the claims made for the Junior High School are, first, that it provides better for individual differences; second, that it makes easier the transition to the high school; third, that it decreases the number of pupils eliminated from the school system; and, fourth, that it furnishes an opportunity for various reforms in instruction. My name is Jesse Curtis, a certified Spanish and English teacher in Oklahoma, with 8 years prior 7-12 experience before the development of this curriculum. My TPRS curriculum worked well with much joy until my district dissolved all elementary Spanish education as I was forced to move on but my experience and success for having kids learn a language was so strong in my heart that I had to put this all in a book.
