Culinary Artistry Sep 28 2020 "In Culinary Artistry...Dornenburg and Page provide food and flavor pairings as a kind of steppingstone for the recipe-dependent cook...Their hope is that once you know the scales, you will be able to compose a symphony." --Molly O'Neil in The New York Times Magazine. For anyone who believes in the potential for artistry in the realm of food, Culinary Artistry is a must-read. This is the first book to examine the creative process of culinary composition as it explores the intersection of food, imagination, and taste. Through interviews with more than 30 of America's leading chefs including Rick Bayless, Daniel Boulud, Gray Kunz, Jean-Louis Palladin, Jeremiah Tower, and Alice Waters the authors reveal what defines "culinary artists," how and where they find their inspiration, and how they translate that vision to the plate. Through recipes and reminiscences, chefs discuss how they select and pair ingredients, and how flavors are combined into dishes, dishes into menus, and menus into bodies of work that eventually comprise their cuisines.

March: Book One Jul 07 2021 Congressman John Lewis (GA-5) is an American icon, one of the key figures of the civil rights movement. His commitment to justice and nonviolence has taken him from an Alabama sharecropper's farm to the halls of Congress, from a segregated schoolroom to the 1963 March on Washington, and from receiving beatings from state troopers to receiving the Medal of Freedom from the first African-American president. Now, to share his remarkable story with new generations, Lewis presents *March*,

a graphic novel trilogy, in collaboration with co-writer Andrew Aydin and New York Times best-selling artist Nate Powell (winner of the Eisner Award and LA Times Book Prize finalist for *Swallow Me Whole*). *March* is a vivid first-hand account of John Lewis' lifelong struggle for civil and human rights, meditating in the modern age on the distance traveled since the days of Jim Crow and segregation. Rooted in Lewis' personal story, it also reflects on the highs and lows of the broader civil rights movement. Book One spans John Lewis' youth in rural Alabama, his life-changing meeting with Martin Luther King, Jr., the birth of the Nashville Student Movement, and their battle to tear down segregation through nonviolent lunch counter sit-ins, building to a stunning climax on the steps of City Hall. Many years ago, John Lewis and other student activists drew inspiration from the 1958 comic book *Martin Luther King and the Montgomery Story*. Now, his own comics bring those days to life for a new audience, testifying to a movement whose echoes will be heard for generations.

Staging Revolution Jan 01 2021 *Staging Revolution* refutes the deep-rooted notion that art overtly in the service of politics is by definition devoid of artistic merits. As a prominent component shaping the culture of the Cultural Revolution, model Beijing Opera (jingju) is the epitome of art used for political ends. Arguing against commonly accepted interpretations, Xing Fan demonstrates that in a performance of model jingju, political messages could only be realized through the most rigorously formulated artistic choices and conveyed by performers possessing exceptional techniques. Fan contextualizes model jingju at the intersection of history, artistry, and aesthetics. Integral to jingju's interactions with politics are the practitioners' constant artistic experimentations to accommodate the modern stories and characters within the jingju framework and the eventual formation of a new sense of beauty. Therefore, a thorough understanding of model jingju demands close attention to how the artists resolved actual production problems, which is a critical perspective missing in earlier studies. This book provides exactly this much-needed dimension of analysis by scrutinizing the decisions made in the real, practical context of bringing dramatic characters to life on stage, and by examining how major artistic elements interacted with each other, sometimes harmoniously, sometimes antagonistically. Such an approach necessarily places jingju artists center stage. Making use of first person accounts

of the creative process, including numerous interviews conducted by the author, Fan presents a new appreciation of a lived experience that, on a harrowing journey of coping with political interference, was also filled with inspiration and excitement. “This fascinating study is ground-breaking and timely. Xing Fan masterfully demonstrates how the creative choices made by playwrights, directors, musicians, actors, and designers intersected with one another in creating an aesthetics of the model theater during the Cultural Revolution. A must-read for anyone interested in Chinese literature and drama, theater studies, and comparative literature.” —Xiaomei Chen, University of California, Davis “Though no longer in fashion, the model revolutionary operas of the Cultural Revolution are still occasionally performed. Xing Fan has done us a great service by analyzing them in detail and reminding us of their merits. I thoroughly enjoyed this engaging book and learned a lot from it. I recommend it strongly.” —Colin Mackerras, Griffith University

traveled to Nevada's Black Rock Desert to participate in the countercultural arts event

Burning Man. Founded on a commitment to expression and community, the annual

weeklong festival presents unique challenges to its organizers. Over four years Katherine K.

Chen regularly participated in organizing efforts to safely and successfully create a

temporary community in the middle of the desert under the hot August sun. *Enabling*

Creative Chaos tracks how a small, underfunded group of organizers transformed into an

unconventional corporation with a ten-million-dollar budget and two thousand volunteers.

Over the years, Burning Man's organizers have experimented with different management models; learned how to recruit, motivate, and retain volunteers; and developed strategies to handle regulatory agencies and respond to media coverage. This remarkable evolution, Chen reveals, offers important lessons for managers in any organization, particularly in uncertain times.

Better Living Through Criticism Aug 28 2020 The New York Times film critic shows why we need criticism now more than ever Few could explain, let alone seek out, a career in criticism. Yet what A.O. Scott shows in Better Living Through Criticism is that we are, in fact, all critics: because critical thinking informs almost every aspect of artistic creation, of civil action, of interpersonal life. With penetrating insight and warm humor, Scott shows that while individual critics--himself included--can make mistakes and find flaws where they shouldn't, criticism as a discipline is one of the noblest, most creative, and urgent activities of modern existence. Using his own film criticism as a starting point--everything from his infamous dismissal of the international blockbuster The Avengers to his intense affection for Pixar's animated Ratatouille--Scott expands outward, easily guiding readers through the complexities of Rilke and Shelley, the origins of Chuck Berry and the Rolling Stones, the power of Marina Abramovich and 'Ode on a Grecian Urn.' Drawing on the long tradition of criticism from Aristotle to Susan Sontag, Scott shows that real criticism was and always will be the breath of fresh air that allows true creativity to thrive. "The time for criticism is always now," Scott explains, "because the imperative to think clearly, to insist on the necessary balance of reason and passion, never goes away."

Reframing Organizations, CafeScribe Oct 22 2022 First published in 1984, Lee Bolman and Terrence Deal's best-selling book has become a classic in the field. Its four-frame model examines organizations as factories, families, jungles, and theaters or temples: The Structural Frame: how to organize and structure groups and teams to get results The Human

Resource Frame: how to tailor organizations to satisfy human needs, improve human resource management, and build positive interpersonal and group dynamics
The Political Frame: how to cope with power and conflict, build coalitions, hone political skills, and deal with internal and external politics
The Symbolic Frame: how to shape a culture that gives purpose and meaning to work, stage organizational drama for internal and external audiences, and build team spirit through ritual, ceremony, and story
This new edition is filled with new case examples such as Hurricane Katrina and profiles of great leaders such as Mother Theresa, Thomas Keller, and others. In addition, the book updates the "Organizational Theory's Greatest Hits" text boxes throughout, and increases geographic, cultural and gender diversity in examples and text. It also features an enhanced online teacher's guide with a new test bank, as well as updated PowerPoint slides, teaching ideas and experiential activities, and links to resources.

Act Like a Leader, Think Like a Leader Apr 23 2020 You aspire to lead with greater impact. The problem is you're busy executing on today's demands. You know you have to carve out time from your day job to build your leadership skills, but it's easy to let immediate problems and old mind-sets get in the way. Herminia Ibarra—an expert on professional leadership and development and a renowned professor at INSEAD, a leading international business school—shows how managers and executives at all levels can step up to leadership by making small but crucial changes in their jobs, their networks, and themselves. In *Act Like a Leader, Think Like a Leader*, she offers advice to help you:

- Redefine your job in order to make more strategic contributions
- Diversify your network so that you connect to, and learn from, a bigger range of stakeholders
- Become more playful with your self-concept, allowing your familiar—and possibly outdated—leadership style to evolve

Ibarra turns the usual “think first and then act” philosophy on its head by arguing that doing these three things will help you learn through action and will increase what she calls your *outsight*—the valuable external perspective you gain from direct experiences and experimentation. As opposed to *insight*, *outsight* will then help change the way you think as a leader: about what kind of work is important; how you should invest your time; why and which relationships matter in informing and supporting your leadership; and, ultimately, who you want to become. Packed with self-assessments and practical advice to help define your most pressing leadership challenges, this book will help you devise a plan of action to become a better leader and move your career to the next level. It's time to learn by doing.

Managing With Power Aug 08 2021 Although much has been written about how to make better decisions, a decision by itself changes nothing. The big problem facing managers and their organizations today is one of implementation--how to get things done in a timely and effective way. Problems of implementation are really issues of how to influence behavior, change the course of events, overcome resistance, and get people to do things they would not otherwise do. In a word, power. *Managing With Power* provides an in-depth look at the role of power and influence in organizations. Pfeffer shows convincingly that its effective use is an essential component of strong leadership. With vivid examples, he makes a compelling case for the necessity of power in mobilizing the political support and resources to get things done in any organization. He provides an intriguing look at the personal attributes—such as flexibility, stamina, and a high tolerance for conflict—and the structural

factors—such as control of resources, access to information, and formal authority—that can help managers advance organizational goals and achieve individual success.
