The Driving Dilemma Apr 03 2021 It's no secret that our population is aging. In fact, it won't be long before one in four drivers will be over the age of 65. Research suggests we'll outlive our ability to drive by almost ten years—but knowing when to stop or limit driving isn't always clear. The Driving Dilemma is a comprehensive resource for older drivers and their families facing questions about driving safety. Dr. Dugan provides clear, useful information about the effects of age, medical conditions, and medications on driving. She offers practical advice on how to discuss this issue with loved ones. Such talks can be difficult, and the book provides not only the facts, but also a research-based approach to communication, with useful sample dialogue scripts that will help you discuss driving with your loved ones. Also included are state-by-state listings of available resources, making this book a total information source for families.

*The Parent's Guide to Childhood Eating Disorders Feb 25 2023 A successful new approach to treating eating disorders in preteens and teens, from a nationally renowned expert in the field. In a society where eating disorders are rampant, it often takes special awareness and vigilance to raise children who will come to the dinner table free of the modern food-related phobias: fear of being fat, fear of excess calories, and obsession with physical*

appearance. Emphasizing a nutritional approach to treatment, *The Parent's Guide to Childhood Eating Disorders* will prove to parents that effective solutions can begin in the home with a reasonable investment of time, effort, and love. This groundbreaking guide includes information on: - spotting early warning signs - normalizing eating and exercises - dealing with school, friends, sports, and camp - knowing when to seek professional help - avoiding a relapse As an expert in eating disorders, a former anorexic, and the mother of two teenagers, Dr. Marcia Herrin speaks with rare authority and understanding. *The Parent's Guide to Childhood Eating Disorders* takes readers step-by-step through the healing journey that Herrin makes with each of her patients. This important new addition to the literature is a warm, accessible guide that all parents concerned about eating disorders will turn to for practical and reassuring information.

*World Guide to Special Libraries* Sep 27 2020 The *World Guide to Special Libraries* lists about 35,000 libraries world wide categorized by more than 800 key words - including libraries of departments, institutes, hospitals, schools, companies, administrative bodies, foundations, associations and religious communities. It provides complete details of the libraries and their holdings, and alphabetical indexes of subjects and institutions.

DNA Fingerprinting: Approaches and Applications Apr 22 2020 Although DNA fingerprinting is a very young branch of molecular genetics, being barely six years old, its recent impact on science, law and politics has been dramatic. The application of DNA fingerprinting to forensic and legal medicine has guaranteed a high public profile for this technology, and indeed, scarcely a week goes by without the press reporting yet another crime successfully solved by molecular genetics. Less spectacularly, but equally importantly, DNA typing methods are steadily diffusing into an ever wider set of applications and research fields, ranging from medicine through to conservation biology. To date, two DNA fingerprinting workshops have been held in the UK, one in 1988 organised by Terry Burke at the University of Leicester, and the second in 1989 at the University of Nottingham, co-ordinated by David Parkin. In parallel with these workshops, which have provided an important focus for researchers, Bill Amos and Josephine Pemberton in Cambridge have established an informal newsletter "Fingerprint News" which is playing a major role as a forum for DNA fingerprinters. By 1989, it was clear that the field had broadened sufficiently to warrant a full international meeting. As a result, Gaudenz Dolf took on the task of organising the first, of what I hope will be many, International Symposium of DNA Fingerprinting held at Bern during Ist-3rd October 1990. The success of the meeting can

be judged from the remarkable attendance, with 270 delegates from no less than 30 countries.
