Far more than just theory, the book outlines practical applications that filmmakers of all levels can use to succeed in today's ever-changing marketplace. Readers will learn how to develop screenplays that are commercial, and how to negotiate, finance, cast, produce, sell, distribute, and market a film that will make a profit. The book contains numerous examples from the author's own films, including sample budgets, schedules, and a variety of industry-standard contracts. This is the definitive book that every producer must have! Mead may have been "discovered," as some suggest, when one of our not-yet-upright forebears stuck their hand in a fermenting bee hive and came away with a honeycomb containing a little more than they bargained for. Whatever the truth, brewers have brought this beverage into the twenty-first century, and you can rest assured that *The Complete Guide to Making Mead* is a thoroughly up-to-date, modern, and authoritative guide to homemade mead. Best of all, it has something for everyone, from the stone-cold beginner to the seasoned veteran. Award-winning mead-maker Steve Piatz begins with a brief history of the fermented beverage; a rundown of the various types of mead; and a discussion of the many types of honey that are available, their characteristics, and where to source them. Readers will be treated to discussions of yeast and special ingredients, as well as what equipment is necessary and recommended and an illustrated and detailed look at the basic process. Readers will also discover advanced techniques, such as oaking, clarifying, aging, spicing, and blending. There are even sections on developing recipes and troubleshooting problems with the brewing process. With more than 100 color photos, *The Complete Guide to Making Mead* includes dozens of recipes for basic meads (honey only), melomels (honey and fruit), metheglins (honey and spices), and braggots (honey and malt). **Cooking. information on stocks and the newest developments in bonds, and examples throughout have been changed to reflect the current investment landscape. Keeping pace with the times to offer investors reliable and understandable advice on managing their investments for the long-term, the new Barron's will follow in the footsteps of its predecessor as a strong and consistent seller. Every girl is a beautiful creation, uniquely equipped by God to do His work in the world. But as girls are growing, changing, and making choices about the kinds of lives they will lead, they are bombarded with conflicting messages about what it means to be a woman. The media says one thing, boys say another, and friends seem obsessed with whatever is newest and coolest. As a result, girls too often hand their decisions over to those least qualified to make them. Into the breach steps Elizabeth George, bestselling author and beloved Bible teacher. With wisdom, gentleness, and tremendous grace, she guides tween girls ages 8 to 12 through the most challenging decisions they face, teaching them to let God—not the world—define who they are. Discussing such topics as attitude, friendships, crushes, parents, school, and avoiding bad situations, Elizabeth helps girls see that the very best choice of all is a choice to live within God's will. Perfect for individuals, small groups, and mentoring. A compendium of crafting inspiration and instruction from the creators of ABC's competition series Making It—featuring twenty-five projects. Now the show's creators are at it again with this in-depth look at some of the best DIY crafts from the show and inspired by the Makers themselves. Introductions to woodworking, fiber arts, paper crafts, and more will enable you to experiment and customize your own creations at home. And the projects are accessible to all skill levels, so you can get just as crafty as the Makers did. This crafting guide will inspire and energize you to DIY whatever you put your mind to. Create beautiful handmade scrapbooks, photo albums, diaries, blank books, and more! Oliver, the high-energy chef, bestselling author of "The Naked Chef," star of the Travel Channels "Jamies Great Italian Escape," and "Today" show cooking expert, returns with his latest guide to help anyone become a better cook. The Insider's Guide to Making Money in the Music Business is the industry bible and the ultimate guide to making money in the music business. Music is a business of money, contracts, decisions and making the most of every opportunity. To succeed - to make money - to have a career - you have to know what you are doing in both music and business. This invaluable book tells you how the business works, what you must know to succeed, and how much money you can make in films, television, video games, ASCAP, BMI and SESAC, record sales, downloads and streams, advertising, ringtones and ringbacks, interactive toys and dolls, Broadway, new media, scoring contracts and synch licenses, music publishing, foreign countries and much more. This indispensable reference is written by industry insiders Todd Brabec, Educator, Entertainment Law Attorney and former ASCAP Executive Vice President and Worldwide Director of Membership, and Jeff Brabec, Vice President of Business Affairs, Chrysalis Music Publishing. Dataviz--the new language of business A good visualization can communicate the nature and potential impact of information and ideas more powerfully than any other form of communication. For a long time "dataviz" was left to specialists--data scientists and professional designers. No longer. A new generation of tools and massive amounts of available data make it easy for anyone to create visualizations that communicate ideas far more effectively than generic spreadsheet charts ever could. What's more, building good charts is quickly becoming a need-to-have skill for managers. If you're not doing it, other managers are, and they're getting noticed for it and getting credit for contributing to your company's success. InGood Charts, dataviz maven Scott Berinato provides an essential guide to how visualization works and how to use this new language to impress and persuade. Dataviz today is where spreadsheets and word processors were in the early 1980s--on the cusp of changing how we work. Berinato lays out a system for thinking visually and building better charts through a process of talking, sketching, and prototyping. This book is much more than a set of static rules for making visualizations. It taps into both well-established and cutting-edge research in visual perception and neuroscience, as well as the emerging field of visualization science, to explore why good charts (and bad ones) create "feelings behind our eyes." Along the way, Berinato also includes many engaging vignettes of dataviz pros, illustrating the ideas in practice. Good Charts will help you turn plain, uninspiring charts that merely present information into smart, effective visualizations that powerfully convey ideas. \*\*New York Times,

Wall Street Journal, and USA Today Bestseller\*\* Tony Fadell led the teams that created the iPod, iPhone and Nest Learning Thermostat and learned enough in 30+ years in Silicon Valley about leadership, design, startups, Apple, Google, decision-making, mentorship, devastating failure and unbelievable success to fill an encyclopedia. So that's what this book is. An advice encyclopedia. A mentor in a box. Written for anyone who wants to grow at work—from young grads navigating their first jobs to CEOs deciding whether to sell their company—Build is full of personal stories, practical advice and fascinating insights into some of the most impactful products and people of the 20th century. Each quick 5-20 page entry builds on the previous one, charting Tony's personal journey from a product designer to a leader, from a startup founder to an executive to a mentor. Tony uses examples that are instantly captivating, like the process of building the very first iPod and iPhone. Every chapter is designed to help readers with a problem they're facing right now—how to get funding for their startup, whether to quit their job or not, or just how to deal with the jerk in the next cubicle. Tony forged his path to success alongside mentors like Steve Jobs and Bill Campbell, icons of Silicon Valley who succeeded time and time again. But Tony doesn't follow the Silicon Valley credo that you have to reinvent everything from scratch to make something great. His advice is unorthodox because it's old school. Because Tony's learned that human nature doesn't change. You don't have to reinvent how you lead and manage—just what you make. And Tony's ready to help everyone make things worth making. Thanks to foodies, soft-focus feature spreads, and unbending artisan philosophies, you'd think that cooking has become a rarified skill that only those with a Yelp account and three-hundred dollar knife set can enjoy. It's easy to forget that delicious food is often loud, messy, and fun. When was the last time a Michelin-starred restaurant made you feel like you discovered a secret, amazing part of a city? When was the last time you yelled "this is f\*king amazing!" at a tastefully-appointed bistro? But you did pledge your undying devotion to that food truck at 3:00 am, right before the memories get fuzzy. So we dug up that taco recipe, plus a couple hundred others worthy of your foul-mouthed late night praise. And now you can make it yourself at home. For those who like their food grilled, fired, and charred, Eat Street presents 200 recipes for the most delicious food in the world -- street food. Starting with the setups, you'll discover how to get the most out of everything from flat-top griddles to outdoor brick ovens to earthenware pots, so you make the best food with the right equipment. Then dig into the greatest hand-held grub from around the world: Philly Cheese Steaks, Pork Belly Gyoza Dumplings, Arepas, and more. Each recipe comes paired with a beer, so you put the right bottle or can with whatever you're cooking. Welcome to Eat Street. "Turn yourself into a marketing master and make tens of thousands of extra dollars with the ideas in this one-of-a-kind resource. Get your books into catalogs, rack up lucrative bulk premium sales, and do author signings and radio interviews that get outrageous results. Find the secret to generating tons of free publicity, then discover how to capitalize on it." If you are serious about making an income online, this book will be a valuable asset that you will want to keep. The effectiveness of a good strategy well implemented determines a business' future success or failure. Yet history is full of strategic decisions, big and small, that were ill-conceived, poorly organized and consequently disastrous. This updated guide looks at the whole process of strategic decision-making, from vision, forecasting, and resource allocation, through to implementation and innovation. Strategy is about understanding where you are now, where you are heading and how you will get there. There is no room for timidity or confusion. Although the CEO and the board decide a company's overall direction, it is the managers at all levels of the organization who will determine how the vision can be transformed into action. In short, everyone is involved in strategy. But getting it right involves difficult choices: which customers to target, what products to offer, and the best way to keep costs low and service high. And constantly changing business conditions inevitably bring risks. Even after business strategy has been developed, a company must remain nimble and alert to change, and view strategy as an ongoing and evolving process. The message of this guide is simple: strategy matters, and getting it right is fundamental to business success.
