You & Your Suzuki 4x4 Apr 15 2022 The Audi TT is one of the few cars which transcends the automotive world, and is applauded for its design per se. Since its launch in early 1999, the TT has been a spectacular sales success, particularly in the UK and the USA. Quattro four-wheel-drive makes the TT unique amongst the current crop of coupes and roadsters. Nearly six years after it was first unveiled to the press, the car still turns heads, and has inspired a burgeoning aftermarket accessory and tuning industry. This all-color book will fascinate all Audi TT owners and sports car enthusiasts in general.

Identity Constructions in Bilingual Advertising Sep 27 2020 This is the first book-length study of identity constructions in relation to English as a contact language in advertising of non-English-speaking countries through a critical and interpretive lens. Instead of simply presuming the role of the English language may have in constructing identities within the multimodal advertisement, this book aims to explore ethnographically the ideological underpinnings of identity constructions in the context of local politics of English. It studies the varying degrees of the contribution of the English language and its possible roles in bilingual advertising, unravels the ideological dimensions of the language as well as identity and explains the sociocultural forms and meanings of identity. To this end, it develops a new critical-cognitive approach, bringing together recent advances in English as a global language, critical sociolinguistics, multilingual studies and multimodal discourse analysis. By delving into the cognitive process of identity constructions, it provides an evidence-based account of the roles of English, and it illustrates the interconnections between identities and local politics of English. This interdisciplinary book will be of interest to scholars and students in bilingualism, multilingualism, discourse analysis, English as a global language, multimodality, advertising and marketing.

High Noon in the Automotive Industry Dec 11 2021 This book was born from curiosity. To begin with, it was the curiosity of an economist who studied in the 60's in an environment which has subsequently developed from national into global economics. Who has to recognize that politicians, scholars and large segments of society oblivious to supranational authorities and economic globalization forces continue to labour under the notion that they are still fully autonomous and sovereign when shaping national economic policy. And pretend as though their own national state were still the "master in its own house" that despite unbridled market economics could continue to dictate to the economy and companies how to live and in which "rooms". All that has become fiction. The laws of globalization diminish the manoeuvring space for shaping national economic policy. Even if many folks today don't want to hear it: The issue is no longer achieving what is socio-politically desirable for the own society but rather the optimal adaptation of society and social benefits to the politically practicable.

Vehicle Excise Duty as Environmental Tax Feb 13 2022 This year's budget made some significant changes to annual road tax (vehicle excise duty or VED). The main changes included: introduction of six new VED bands from 2009–10, bringing the total number of bands to 13; applying this new regime of 13 bands to existing cars on the road first registered on or after 1 March 2001; and introduction of a new rate of VED for new cars in the first year in which they are bought. The Environmental Audit Committee's aims in this report were to examine the projected environmental impacts of these changes, to review how fair these changes are, and to make recommendations to the Treasury as to how it should proceed. The Committee felt that there was

nothing intrinsically wrong in the rebanding of cars registered since 2001 but that there was a lack of data about the financial impacts of these change on lower-income groups. The new-first year rates were welcomed. However concerns remain that the differentials between VED bands are still not large enough to drive market transformation. The Treasury should have taken much greater care to explain the changes in VED in the Budget. If the point of green taxes is to change behaviour, they need to be properly publicised. In general, the Treasury needs to develop a proper communications strategy

For Goodness Sake, Stay Out of the Casino Jan 20 2020 Be prepared to clench your fist, shake your head in amazement, shed a tear, and smile with amusement as you journey down the author's bumpy road in trying to follow Christ and overcome his weakness: a gambling addiction. What is your weakness? Journey with me, stay in the fight. "Let us not grow weary in doing what is right, for we will reap at harvest time, if we do not give up" (Galatians 6:9). The devil is the tempter, and we have free will to choose which path we will follow. Following sure seems easier for some than others, doesn't it? Or maybe they just harden their heart and conceal it better. "[He] beat his chest in sorrow saying, 'O God, be merciful to me a sinner!' I tell you that person, rather than the other went home justified before God. For all those who exalt themselves will be humbled, and those who humble themselves will be exalted" (Luke 18:13-14).

Global Business Strategy Nov 10 2021 This book presents theories and case studies for corporations in developed nations, including Japan, for designing strategies to maximize opportunities and minimize threats in business expansion into developing nations. The case studies featured here focus on Asia, including China and India, and use examples of Japanese manufacturers. Five case studies are provided, including Hitachi Construction Machinery and Shiseido in China and Maruti Suzuki in India. These cases facilitate the reader's understanding of the business environments in emerging economies. This volume is especially recommended for business people responsible for international business development, particularly in China and India. In addition, the book serves as a useful resource for students in graduate-level courses in international management.

Automobily: jména, značky a znaky Jul 06 2021 Jakou výbavu měla speciální série vozů Aston Martin, nazvaná Alfred Dunhill? Jak souvisí logo Maserati s fontánou z 16. století? Je slovo Aero spojeno jen s českou automobilkou, nebo najdeme vozy tohoto jména i v jiných částech světa? Co přesně jsou „daňové koně“? Vymysleli název Citroën Elysée Číňané? Jak ovlivnil vývoj automobilového průmyslu fakt, že zakladatelé značek Ferrari a Lamborghini spolu nevycházeli? Ing. Jiří Fiala (publicista, automobilový historik a sběratel automobilové literatury) a doc. Petr Strossa (vědec, expert přes jazyky a dorozumívání s počítači) předkládají všem automobilovým fanatikům unikátní výkladový slovník jmen značek a jejich typů, který obsahuje hesla o přibližně 1600 značkách a více než 5000 typech a modelech. Čtenáři v knize najdou mimo jiné základní informace o výrobcích automobilů, jejich filozofii označování typů, používání interních kódů či recyklování názvů vozů. Dozvědí se, proč se jeden automobil prodával pod různými názvy, proč se některá jména nesměla používat nebo jakých dosáhly jednotlivé vozy sportovních úspěchů. Vůbec poprvé je u nás pak publikován systém kódů sovětských vozidel a přehled čínských značek a výrobců. Zvláštní pozornost je věnována znakům (logům) všech důležitých značek, jejich vzniku a proměnám v čase. Celá tato speciální problematika je navíc zasazena do kontextu společenských a geopolitických událostí a okořeněná množstvím pozoruhodných historek a kuriozit souvisejících s auty, jejich jmény a výrobci.
