Achieving peace is often thought about in terms of military operations or state negotiations. Yet it also happens at the grassroots level, where communities envision and create peace on their own. The San José de Apartadó Peace Community of small-scale farmers has not waited for a top-down peace treaty. Instead, they have actively resisted forced displacement and co-optation by guerrillas, army soldiers, and paramilitaries for two decades in Colombia's war-torn Urabá region. Based on ethnographic action research over a twelve-year period, Christopher Courtheyn illuminates the community's understandings of peace and territorial practices against ongoing assassinations and displacement. San José's peace through autonomy reflects an alternative to traditional modes of politics practiced through electoral representation and armed struggle. Courtheyn explores the meaning of peace and territory, while also interrogating the role of race in Colombia's war and the relationship between memory and peace. Amid the widespread violence of today's global crisis, Community of Peace illustrates San José's rupture from the logics of colonialism and capitalism through the construction of political solidarity and communal peace. Love alone isn't enough to overcome some obstacles. Lena Kauffman is a young Old Order Amish schoolteacher who has dealt all her life with attention raised by a noticeable birthmark on her cheek. Having learned to move past the stares and whispers, Lena channels her zest for living into her love of teaching. But tensions mount as she is challenged to work with a rebellious young man and deal with several crises at the schoolhouse that threaten her

other students. Her lack of submission and use of ideas that don't line up with the Old Ways strengthen the school board's case as they begin to believe that Lena is behind all the trouble. One member of the school board, Grey Graber, feels trapped by his own stifling circumstances. His wife, Elsie, has shut him out of her life, and he doesn't know how long he can continue to live as if nothing is wrong. As the two finally come to a place of working toward a better marriage, tragedy befalls their family. Lena and Grey have been life-long friends, but their relationship begins to crumble amidst unsettling deceptions, propelling each of them to finally face their own secrets. Can they both find a way past their losses and discover the strength to build a new bridge?

A long time ago in China, there existed three Books of Peace that proved so threatening to the reigning powers that they had them burned. Many years later Maxine Hong Kingston wrote a Fourth Book of Peace, but it too was burned--in the catastrophic Berkeley-Oakland Hills fire of 1991, a fire that coincided with the death of her father. Now in this visionary and redemptive work, Kingston completes her interrupted labor, weaving fiction and memoir into a luminous meditation on war and peace, devastation and renewal. Critical Issues in Peace and Conflict Studies: Theory, Practice, and Pedagogy, edited by Thomas Matyók, Jessica Senehi, and Sean

Byrne, discusses critical issues in the emerging field of Peace and Conflict Studies, and suggests a framework for the future development of the field and the education of its practitioners and academics. Contributors to the book are recognized scholars and practitioners in their respective fields. The authors take an holistic approach to the study, analysis, and resolution of conflict at the micro, meso, macro, and mega levels. The pragmatist philosopher Jane Addams (1860-1935) is celebrated as the founder of Hull House, the settlement house for disadvantaged people in Chicago, where for many years she put into practice her progressive ideas for social reform. Addams was also deeply involved in international peace efforts. Remaining a pacifist throughout World War I, she was a founder of the Women's International League for Peace and Freedom and went on to receive the Nobel Peace Prize in 1931. Her books and essays on peace are frequently cited but long out of print and hard to obtain. Interest in Jane Addams is rapidly growing. As the American government withdraws from international treaties, her call for international law and cooperation has a new relevance. And in our increasingly dangerous world, her call for peace is being heard again. This volume contains the most complete collection ever made of Addams's essays, articles, and speeches on peace and international relations, written between 1899 and

1935. > This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Somewhere in the world each day, people just like you are acting in kind, peaceful, loving ways. Perhaps they are visiting someone who is old, teaching a little sister to ride a bike, or sharing an experience with a friend from a different culture. With its poetic text and appealing, vibrant photographs, this book

shows some of the simple ways in which any child or grownup can make the world a better place. This book examines the transformation of the discourse and praxis of peace, from its early beginnings in the literature on war and power, to the development of intellectual and theoretical discourses of peace, contrasting this with the development of practical approaches to peace, and examining the intellectual and policy evolution regarding peace. Mediation and negotiation, personal transformation, non-violent struggle in the community and the world: these behaviors - and their underlying values - underpin the United Nations' definition of a culture of peace, and are crucial to the creation of such a culture. The Handbook on Building Cultures of Peace addresses this complex and daunting task by presenting an accessible blueprint for this development. Its perspectives are international and interdisciplinary, involving the developing as well as the developed world, with illustrations of states and citizens using peace-based values to create progress on the individual, community, national, and global levels. The result is both realistic and visionary, a prescription for a secure future. Frustrated with an increasingly polarized society, award-winning photographer John Noltner set out on a road trip across the US to rediscover the common humanity that connects us by asking people the simple question What does peace mean to you? Fuller text of a speech delivered at a dinner held on Mount Scopus on July 25, 1968 to mark the occasion of the first meeting of the Board of Trustees of the Harry S Truman Center for the Advancement of Peace. At turns surprising, funny, and gut-wrenching, this is the hopeful story of the ordinary yet extraordinary people who have figured out how to build lasting peace in their communities The word "peacebuilding" evokes a story we've all heard over and over: violence breaks out, foreign nations are scandalized, peacekeepers and million-dollar donors come rushing in, warring parties sign a peace agreement and, sadly, within months the situation is back to where it started--

sometimes worse. But what strategies have worked to build lasting peace in conflict zones, particularly for ordinary citizens on the ground? And why should other ordinary citizens, thousands of miles away, care? In *The Frontlines of Peace*, Severine Autesserre, award-winning researcher and peacebuilder, examines the well-intentioned but inherently flawed peace industry. With examples drawn from across the globe, she reveals that peace can grow in the most unlikely circumstances. Contrary to what most politicians preach, building peace doesn't require billions in aid or massive international interventions. Real, lasting peace requires giving power to local citizens. *The Frontlines of Peace* tells the stories of the ordinary yet extraordinary individuals and organizations that are confronting violence in their communities effectively. One thing is clear: successful examples of peacebuilding around the world, in countries at war or at peace, have involved innovative grassroots initiatives led by local people, at times supported by foreigners, often employing methods shunned by the international elite. By narrating success stories of this kind, Autesserre shows the radical changes we must take in our approach if we hope to build lasting peace around us--whether we live in Congo, the United States, or elsewhere. A rigorous global examination of the links between peaceful borders and illicit transnational flows of crime and terrorism. Since the early days of the Church, Christians have struggled to come to terms with Christ's words of peace and His example of peace. In Christ's life, as recorded in the New Testament, it is striking that He neither killed anyone nor summoned any of His disciples to kill. Indeed, the final miracle Christ performed before His execution was to heal an enemy's wound, an injury caused by the Apostle Peter in an attempt to defend his master. Yet, in the course of more than twenty centuries of Christian history, we see Christians often involved in war and, in surveying the calendar of saints, find not only those who refused to take part in war but also those who served in the

military, though no one has been canonized due to his skill as a soldier. Besides the millions of Christians who have fought in armies, often against fellow Christians, we also find many priests, bishops and theologians who have advocated war and blessed its weapons. Our subject is an urgent one. Many people today live either near conflict areas or are directly touched by war or in areas where terrorist actions may suddenly occur. Everyone on the planet is in some way affected by wars in progress or wars in the making as well as the consequences of wars in the past. Every day thousands of Christians struggle in thought and prayer with some of the most difficult of questions: May I fight injustice by violent methods? Am I allowed to kill in combat? Are there limits on what I can do in the defense of my country? Am I as a Christian allowed to disobey demands that I believe are unjust or violate the Gospel? When the demands of my country seem at odds with the demands of the Kingdom of God, how do I respond to this conflict? Rarely do we find easy answers to these and similar questions. Thus, those of us in the Orthodox Christian tradition search for help in Holy Scripture, the canons provided to us by ecumenical councils, the witness of the saints, the writing of the Fathers of the Church as well as theologians of recent times. Imitation of saintly forebears alone, however, will not solve our problems. Different eras have adopted different attitudes. Also many of today's problems never existed before, not least the changed character of war in an era of weapons of mass destruction, terrorism and mass propaganda. Yet knowledge of the thought and action undertaken by the Orthodox Churches on the issues of war and peace in recent decades surely can help us find ways out of the dead ends that many communities are experiencing today. This is the aim of this book. Inspirational Thoughts and Prayers to Begin Your Day Selected lines of Scripture motivate readers to use the gifts God has given. This Moments of Peace book will encourage readers of all ages. Knowledge can create peaceful realities in addition to serving as

an intellectual tool for peace-making. This is why pragmatist assessment of social science should avoid looking exclusively at the instrumental value of different paradigms. This book investigates the realities that positivism, anti-determinism, symbolic interactionism, social constructivism and critical theory create, and the tools they offer for a peace researcher and a peace practitioner. In essence, *Paradigms of Peace* looks at what social science can give to the humanity's search for peace and then offers an agenda for peace research. Using constructivist pragmatist metatheory to guide the assessment of the merits of different social science approaches to peace, this book suggests completely new ways of looking at the theory of peace and war. Difficult theoretical and philosophical constructs are presented but always supplemented with real-life examples, making it practical and relevant to both a research and policy-making level. Perfect for students and professionals of international relations, political science, peace and reconciliation studies, conflict and war studies and history. Contents: Introduction Classical and Constructivist Pragmatism Positivism: Social Engineering of Peace Toward a Social Science of Peace Interpretations as a Conflict Reality Social Construction of Structures of Peace and Conflict Critical Approaches and Peace Intellectual Opportunities for the Creation of a Less Violent World Conclusions and Missions for Pragmatist Peace Research Readership: Students and professionals of International Relations, Political Science, Peace and Reconciliation Studies, Conflict and War Studies and Historians. In troubled times of heightened global tensions and conflict, *(un)Common Sounds: Songs of Peace and Reconciliation among Muslims and Christians* explores the contribution of music and the performing arts to peacebuilding and interfaith dialogue in interreligious settings. It asks the simple but endlessly complex question: How is music and song used in our faiths and daily lives to foster peace and reconciliation? Focusing on the two largest world religions that together comprise more than 55% of the

world's population, the essays address the complexities of embodied, lived religious traditions by moving across and linking a range of disciplines: ethnomusicology (the intersection of music and culture), peacemaking, Islamic studies, and Christian theology. Based on research in the Middle East, North Africa, and Indonesia, context-specific case studies serve to identify and reflect on the significant roles of music and the performing arts in fostering sustainable peace. (un)Common Sounds investigates the dynamics of peacebuilding and interfaith dialogue as they relate to music's transformative roles in conflict and post-conflict settings. Classroom tested, ((un)Common Sounds also provides discussion questions and projects for each chapter, a companion Web site (www.songsforpeaceproject.org), and an available documentary film to enhance learning in the academy, nongovernmental organizations, and religious groups. The Language of Peace: Communicating to Create Harmony offers practical insights for educators, students, researchers, peace activists, and all others interested in communication for peace. This book is a perfect text for courses in peace education, communications, media, culture, and other fields. Individuals concerned about violence, war, and peace will find this volume both crucial and informative. This book sheds light on peaceful versus destructive ways we use words, body language, and the language of visual images. Noted author and educator Rebecca L. Oxford guides us to use all these forms of language more positively and effectively, thereby generating greater possibilities for peace. Peace has many dimensions: inner, interpersonal, intergroup, international, intercultural, and ecological. The language of peace helps us resolve conflicts, avoid violence, and reduce bullying, misogyny, war, terrorism, genocide, circus journalism, political deception, cultural misunderstanding, and social and ecological injustice. Peace language, along with positive intention, enables us to find harmony inside ourselves and with people around us, attain greater peace in the wider

world, and halt environmental destruction. This insightful book reveals why and how. The thoroughly updated Fourth Edition of the gold standard text explores historical and current topics in today's rapidly changing world to provide a comprehensive introduction to peace and conflict studies. Authors David P. Barash and Charles P. Webel offer an insightful analysis of 21st-century global affairs, including such timely topics as ISIS, the nature of violence and nonviolence, cutting-edge military technologies, the Terrorism and Global Peace Indexes, and the latest developments in Iran, North Korea, and Syria.

Comprehensive yet written in a student-friendly and accessible style, the text represents a commitment to inspire readers to create a better world through an understanding of what has happened and what is happening, and therefore what is likely to take place in the future. Audisee® eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience! A heartbreaking but essential perspective on war and survival.—starred, Kirkus Reviews In this deeply moving nonfiction picture book, award-winning author Caren Stelson brings Sachiko Yasui's story of surviving the atomic bombing of Nagasaki and her message of peace to a young audience. Sachiko's family home was about half a mile from where the atomic bomb fell on August 9, 1945. Her family experienced devastating loss. When they returned to the rubble where their home once stood, her father miraculously found their serving bowl fully intact. This delicate, green, leaf-shaped bowl—which once held their daily meals—now holds memories of the past and serves as a vessel of hope, peace, and new traditions for Sachiko and the surviving members of her family. There is no easy way out of the spiraling morass of terror and brutality that confronts the world today. It is time now for the human race to hold still, to delve into its wells of collective wisdom, both ancient and modern.--Arundhati Roy *The Power of Nonviolence*, the first anthology of alternatives to war with a historical perspective,

with an introduction by Howard Zinn about September 11 and the U.S. response to the terrorist attacks, presents the most salient and persuasive arguments for peace in the last 2,500 years of human history. Arranged chronologically, covering the major conflagrations in the world, *The Power of Nonviolence* is a compelling step forward in the study of pacifism, a timely anthology that fills a void for people looking for responses to crisis that are not based on guns or bombs. Included are some of the most original thinkers about peace and nonviolence—Buddha, Scott Nearing, Henry David Thoreau's "Civil Disobedience," Jane Addams, William Penn on "the end of war," Dorothy Day's position on "Pacifism," Erich Fromm, and Rajendra Prasad. Supplementing these classic voices are more recent advocates of peace: Albert Camus' "Neither Victims Nor Executioners," A. J. Muste's impressive "Getting Rid of War," Martin Luther King's influential "Declaration of Independence from the War in Vietnam," and Arundhati Roy's "War Is Peace," plus many others. How do ordinary people from different regions around the world define peace and reconciliation? What factors do they think are necessary for promoting reconciliation between countries? Do they believe that individuals have a right to protest against war and in favor of peace? Do they believe that apologies can improve the chances of reconciliation? What do they think are the best ways for achieving

peace? Does reasoning regarding the achievability of world peace vary by region? *International Handbook of Peace and Reconciliation*, a companion volume to the *International Handbook on War, Torture, and Terrorism*, examines and analyzes how people around the world think about justice, governmental apologies, the right to protest, the peace process, the justifiability of armed conflict, the possibility of world peace, and reconciliation. To address these questions, researchers from the Group on International Perspectives on Governmental Aggression and Peace (GIPGAP) administered the Personal and Institutional Rights to Aggression and Peace Survey (PAIRTAPS) to volunteers from over 40 countries representing the major regions of the world. The volume is organized such that the responses to the survey are summarized and analyzed by both by country and by theme. Integrative chapters provide an up-to-date overview of historical and current events relevant to peace and reconciliation and a grounded theory analysis of definitions of peace and reconciliation and of the role of apology in reconciliation. In addition to describing the major themes emerging from the responses in each region, the volume reports on some exploratory analyses addressing the extent to which we found differences in patterns of responding based on characteristics such as gender, military experience, and involvement in anti-war protest activity. *International Handbook on Peace and Reconciliation* allows ordinary citizens from around the world to voice their views on peace and related issues, and examines the context of these views. Thus, it offers researchers in political science, peace psychology, social psychology, social justice, and anthropology a comprehensive resource for a changing global landscape. *Preventing War and Promoting Peace: A Guide for Health Professionals* is an interdisciplinary study of how pervasive militarism creates a propensity for war through the influence of academia, economic policy, the defense industry, and the news media. Comprising contributions by academics and

practitioners from the fields of public health, medicine, nursing, law, sociology, psychology, political science, and peace and conflict studies, as well as representatives from organizations active in war prevention, the book emphasizes the underlying preventable causes of war, particularly militarism, and focuses on the methods health professionals can use to prevent war. Preventing War and Promoting Peace provides hard-hitting facts about the devastating health effects of war and a broad perspective on war and health, presenting a new paradigm for the proactive engagement of health professions in the prevention of war and the promotion of peace. At eighty-three Helen has had enough of world conflict and wars. In this essay she preaches about what she perceives as an attainable path to world peace. Born during the Civil War she has seen the devastation and misery caused by the world's great powers struggling for supremacy and domination of vast stretches of humanity. She has lived through two world wars and numerous smaller conflicts, but now, at the end of World War II, she sees a threat to humanity itself, atomic power. Helen calls for the establishment of two world confederations of peace, one composed of the women of the world and the other of everyone else. She produces testimonials from various influential people to support her cause. Finally, she plugs for her long dead husband, Confederate General James Longstreet, in her continuing effort to rehabilitate his tarnished reputation. Peace is making new friends. Peace is helping your neighbor. Peace is a growing a garden. Peace is being who you are. The Peace Book delivers positive and hopeful messages of peace in an accessible, child-friendly format featuring Todd Parr's trademark bold, bright colors and silly scenes. Perfect for the youngest readers, this book delivers a timely and timeless message about the importance of friendship, caring, and acceptance. This book was written to help people achieve a more happy and successful life while better connecting to their spirituality. To provide direction for anyone that is seeking self-

improvement, growth, motivation, and more fulfillment from life. We all have parts of our lives that are flourishing and parts that need healing. Things we would like to change and improve. The proper mindset and actions we put into these life circumstances make all the difference. The essence of the book is about the universal search we all undertake to find our true spirit, happiness, self-worth, and life success. This search for self-realization often requires courage to challenge the status quo to find and be who we are meant to be. The 50 success principles outlined provide direction for anyone that is seeking a more happy and successful life.
