How "MacArthur Park" goes, so I sang it, giving it my best shot, and Rob laughed so hard that when I got to the part about leaving the cake out in the rain, and it took so long to bake it, and I'll never have that recipe again, Rob was on the floor." Multi-disciplinary artist Kasondra Rose creates an anthology of verses culled from her poetry journals, which chronicled her experiences in the creative life.

Introspective and inspired, Kasondra creates impressions on life and love with words having rhythm and grace, and dancing across the pages of this book. The poems have a lyrical and musical quality which is not surprising as the author is

a practicing singer-songwriter. Expressive and profound, these poems elevate ones senses and lend us the ability to see and listen to the world arounds us through a sensitive artists soul. Judy Welden's starkly honest memoir will grip your emotions as she relates a story of struggle, challenges, and ultimate success. Travel with her as she recalls a full spectrum of childhood emotions, youthful romance, motherhood and stardom as an internationally recognized songwriter and performer. You will feel like you really know Judy as you turn the pages of her memoir. - Charlene DeWitt, Author, former VP-Northeast Georgia Writers Founder/Leader of Tall Tales Family Farm Writers and Founder/Leader of GNC Writers Judy Welden's life story is both interesting and inspiring. A gifted and prolific songwriter as well as a talented singer, she has won many awards, but the recognition didn't come easy. Many will relate to her struggles to overcome difficulties while forging forward with a career. The book is also entertaining and, yes, at times, funny. This remarkable woman has the uncanny ability to tell a brutally honest story which leaves the reader feeling motivated and uplifted. - Laurie Hyatt, Ph.D., author of: Think Your Way to Happiness & Silent Decision A passionate woman, who was stifled for two decades by an unloving husband, Judy Welden didn't begin to live the life she was meant to lead after his drowning death in 1980. To ease her sadness, she kept busy with the booking agency she'd started,

wrote poetry and 400+ song lyrics. Finding love again, she helped her new husband set up his Chiropractic office, then went on to pursue her music dream. Starting two publishing companies and two record labels, she managed to get over 100 singer/songwriters heard as well as her own recorded music. Judy also patented a unique bandana hat without an attorney. With adversity at every turn, she somehow succeeded due to her work ethic, winning many awards that proved her credibility plus sheer determination. Judy also shares the part of her life unrelated to music in a boldly honest, memorable way, that is heartfelt and often amusing. It is her hope that readers will be inspired to follow their dreams.

<http://www.judywelden.com> Charlie Molloy is an old-school traveling salesman who loves people and airport bars because he will never see those people again. He is a master of The Chat. Lately, though, he doesn't understand how people can take out a phone in the middle of a conversation they're having with him to check their social networks. He doesn't understand it so much that the young people at his company decide he's an old fool who needs to go. He finds himself on Singer Island, Florida, looking at shells, trying to get The Chat going in the local bars during afternoons of drinking the house red, and wondering what it all meant. Donna, his wife of many years, wants to fix him, but she knows that no one can fix another person. All she can do is love him. And he loves her. And then came Clare.

This handbook provides a comprehensive, interdisciplinary examination of childhood violence that considers children as both consumers and perpetrators of violence, as well as victims of it. Jan & Dean were among the most successful artists of the late 1950s through the mid-1960s, with hits including "Baby Talk," "Surf City," "Dead Man's Curve" and "The Little Old Lady (From Pasadena)." Slapstick humor and offbeat personas were a big part of their shtick, but Jan Berry was serious when it came to the studio. This book chronicles Jan's career as a songwriter and arranger--and his tenure as producer for Jan & Dean and other acts--with day-by-day entries detailing recording sessions, single and album releases, concerts and appearances, film and television projects, behind-the-scenes business and legal matters, chart positions and more. Extensive commentary from Berry's family, friends and colleagues is included. Studio invoices, contract details, tape box notes, copyright information and other particulars shed light on how music was made in the Hollywood studio system of the 1960s. Amid a childhood steeped in tragedy, murder, and abuse clouded by the familys alcoholism and inner demons, one boy, crowned with an innate gift imposed on him by the miracle of human creation, at the age of fourteen, separates himself from the family ignominies and to stave off poverty. He is determined to override and erase the memory of his abusers and his grandfathers debacle and the tragedy that resulted from it--his self-confidence prevails. The combination of forbidding and bliss convey a diverse story: from a group of religious people who sexually abused him, to the center of the glamorous celebrity world, to Mother Nature that, in a spectacular display, demonstrated his future, and how he comes to meet the President of America, Pope John

XXIII, the King of Thailand, and numerous Hollywood luminaries. North Florida's proud folk music heritage reaches back more than half a century. A compelling text and truly beneficial book for both amateurs and professionals and, most importantly, for those voice teachers, coaches, choral directors, and singing voice specialists who provide care and support for them. Judith Wingate addresses typical vocal health problems encountered by singers and offers them, and their caregivers, practical suggestions, including straightforward, step-by-step exercises to improve vocal function. In particular, the book focuses on the needs of special groups of singers, such as public school music teachers and choral directors. Young classical singers, particularly recent graduates of music programs, need not only considerable artistic ability but also intelligence and an acute business sense to navigate the world of professional singing. In this book, author Susan Mohini Kane has created a user-friendly guide for these recent graduates. Kane combines the benefits of an instructional manual with those of a self-reflective workbook to provide emerging classical singers with both practical and inspirational advice. Shortly after finishing my last book Aliens and Cowboys I found myself with time on my hands so I began writing songs. The driving motivation for this book began when I moved to Auburndale Florida. Polk County is a rural community (home to orange groves and sparkling fresh water lakes) this is the first time I spent any amount of time with country folks. I started listening predominately to country music and evangelists on the radio. A short time later I realized these outside influences were changing the nature of my words and themes. For nine months I lived in Polk County the rest of the time I lived with my father and brother after separating with my long time girl friend. I finished this book at King's Point in Delray Beach Florida. The selections

picked for this book reflect real life after all they come from real people and true-life events. The songs/poetry in this book were inspired by people I know, people I've spoke with (in person and in chat rooms on the web). The songs are about the Cast Of Characters that have been in and out of my life for the past year. I am not sure how some of the people I wrote about will react about the stories I tell, after all they are my interpretation of their words, their tears, their hopes and yes their fears, but also their optimism, faith in god and love of life. It celebrates the human spirit that begins our everyday and never goes away. Be well, keep your head up, and see you along the road to heaven.

Jeffrey Langer In 1971, college-freshman Larry Singer approached a local concert promoter for permission to take photographs for a local newspaper. Little did he know that, a verbal agreement and handshake later, he would have unrestricted access to the luminaries of rock-and-roll! In the ensuing years, Singer was recruited as a photographer for Circus magazine and shot photos of The Who, Bob Dylan, Deep Purple, The Rolling Stones, Van Halen, Alice Cooper, and many more. Today, his work is included in the permanent collection of the Rock & Roll Hall of Fame and has been featured in music documentaries about the legends of the 1970s and early 1980s. In this book, he takes readers behind the scenes with stories and photos from his favorite performers and concerts. -- Larry Singer To be

completed in 12 volumes, this monumental work here begins publication with the first two volumes—Abaco to Bertie and Bertin to Byzard. When completed, it is expected that the biographical dictionary will include information on more than 8,500 individuals. Hundreds of printed sources have been searched for this project, and dozens of repositories combed, and the names of personnel listed have been filtered through parish registers whenever possible. From published and unpublished sources, from wills, archives of professional societies and guilds, from records of colleges, universities, and clubs, and from the contributions of selfless scholars, the authors have here assembled material which illuminates theatrical and musical activity in London in the 1660–1800 period. The information here amassed will doubtless be augmented by other specialists in Restoration and eighteenth-century theatre and drama, but it is not likely that the number of persons now known surely or conjectured finally to have been connected with theatrical enterprise in this period will ever be increased considerably. Certainly, the contributions made here add immeasurably to existing knowledge, and in a number of instances correct standard histories or reference works. The accompanying illustrations, estimated to be some 1,400 likenesses—at least one picture of each subject for whom a portrait exists—may prove to be a useful feature of the Work. The authors have gone beyond embellishment

of the text, and have attempted to list all original portraits any knowledge of which is now recoverable, and have tried to ascertain the present location of portraits in every medium. A go-getting, red-headed college kid eager to break into the music business, Phil Gernhard produced a handful of singles for South Carolina doo-wop group Maurice Williams and the Zodiacs. One of these songs, "Stay," reached number one on the charts in 1960. Gernhard was just 19 years old. Phil Gernhard, Record Man is the story of a self-made music mogul who created nearly fifty years' worth of chart-topping songs. From a tiny office and studio in Florida, he co-wrote the Royal Guardsmen's "Snoopy vs. the Red Baron," America's fastest-selling single of 1966. He revived the career of singer Dion DiMucci with the ballad "Abraham, Martin and John"--a million seller. He discovered and produced hit records for Lobo, Jim Stafford, and the Bellamy Brothers. Through a long collaboration with music business icon Mike Curb, he launched to fame many others, including country superstars Tim McGraw and Rodney Atkins. In Nashville and Los Angeles, Phil Gernhard was a legend. Yet Gernhard's private life was crumbling. He battled physical and emotional demons that he simply couldn't overcome, struggling with alcoholism, drug addiction, and a bad past with his father. He filed for his fourth divorce just months before taking his own life in 2008. Through interviews with Gernhard's musicians, business partners, family members, and

ex-wives, Bill DeYoung offers an intimate portrait of a brilliant yet troubled man who channeled his talent, ego, and ambition into the success of others. A true "record man," Gernhard did it all. He lived to make records into gold, to make unknowns into stars, and above all, to make music. Ryan Speedo Green had a tough upbringing in southeastern Virginia: his family lived in a trailer park and later a bullet-riddled house across the street from drug dealers. His father was absent; his mother was volatile and abusive. At the age of twelve, Ryan was sent to Virginia's juvenile facility of last resort. He was placed in solitary confinement. He was uncontrollable, uncontainable, with little hope for the future. In 2011, at the age of twenty-four, Ryan won a nationwide competition hosted by New York's Metropolitan Opera, beating out 1,200 other talented singers. Today, he is a rising star performing major roles at the Met and Europe's most prestigious opera houses. *SING FOR YOUR LIFE* chronicles Ryan's suspenseful, racially charged and artistically intricate journey from solitary confinement to stardom. Daniel Bergner takes readers on Ryan's path toward redemption, introducing us to a cast of memorable characters--including the two teachers from his childhood who redirect his rage into music, and his long-lost father who finally reappears to hear Ryan sing. Bergner illuminates all that it takes--technically, creatively--to find and foster the beauty of the human voice. And *Sing for Your Life* sheds unique light on the enduring and complex realities of race in America. This year's winner of the Yale Series of Younger Poets

competition is Sean Singer's Discography. Playful, experimental, jazz-influenced, the poems in this book delight in sound and approach the more abstract pleasures of music. Singer takes as his subjects music, jazz figures, and historical events. Series judge W. S. Merwin praises Singer for his "roving demands on his language" and "the quick-changes of his invention in search of some provisional rightness." "Human flight is not a simple matter of science and technology. It is a continuing epic of dreams and obsession, of yearning and striving to harness the intellect in the service of the emotions." In *Like Sex with Gods: An Unorthodox History of Flight*, Bayla Singer offers a unique approach to humanity's fascination with flying. Rather than merely tracing the factual prehistory of flight up to the success of the Wright Brothers, Bayla Singer considers the interaction and influence of our dreams, fantasies, culture, and technology on the age-old quest to fly. This enlightening study begins with the deities and other denizens of the heavens that humanity has created in its religion, literature, and art. At first a monopoly of the gods, flight came to interest humanity as a way to free itself from the physical and intellectual bonds of the earth. The myth of flight eventually gives way to the pursuit of actual flight. Singer shows in compelling detail the many flying machines that have been created, including balloons, gliders, and kites. The accomplishment of the Wright

Brothers and our successful trips into space are merely stops on a continuing journey, as our ancient dream of flight continues to push us to new and loftier places. Filled with compelling stories and detailed illustrations, this book provides absorbing reading for aviation experts, those fascinated with the intimate relationship between technology and culture, and all of us who have even a passing interest in flying. Michael A. Singer, author of *The Untethered Soul*, tells the extraordinary story of what happened when, after a deep spiritual awakening, he decided to let go of his personal preferences and simply let life call the shots. As Singer takes you on this great experiment and journey into life's perfection, the events that transpire will both challenge your deepest assumptions about life and inspire you to look at your own life in a radically different way. Spirituality is meant to bring about harmony and peace. But the diversity of our philosophies, beliefs, concepts, and views about the soul often leads to confusion. To reconcile the noise that clouds spirituality, Michael Singer combines accounts of his own life journey to enlightenment – from his years as a hippie-loner to his success as a computer program engineer to his work in spiritual and humanitarian efforts – with lessons on how to put aside conflicting beliefs, let go of worries, and transform misdirected desires. Singer provides a road map to a new way of living not in the moment, but to exist in a state of perpetual happiness.
