*1st Lt. Raymond Miller Pilot Feb 26 2023 Many World War II exploits took place away from the spotlight. Raymond Miller brings his gift to the story of Service and Duty. How he chose to leave Purdue University, ROTC, a basketball team and parents behind to help bring a dictator to heel as co-pilot of a B-17G Flying Fortress Bomber. On Raymonds second combat mission he nearly lost his life from a piece of shrapnel to the throat and shattered breast bone. After surgery and rehab he resumed to co-pilot twenty more combat missions encountering the best the Germans could throw against them. Theyd leave out to fly a mission over hostile territory not knowing when they might be hit or knowing if they would return. There were flights where the crews gulp to alleviate fear, for they felt there were no havens of security in an Allied victory that at times seemed importable. Raymond Miller feels honored to have been able to serve his country. Raymonds story gives a compelling glimpse of three brothers value that characterized their early years and their United States Army Air Corps years of dedication. Raymond says, I feel blessed for God has been good to me.*

*Mission to Berlin Mar 23 2020 From Hell Hawks! author Bob Dorr, Mission to Berlin takes the reader on a World War II strategic bombing mission from an airfield in East Anglia, England, to Berlin and back. *Flight 27 Alpha Feb 02 2021 Flight 27 Alpha is the compelling story of two men, father and son, tragically separated by an incident officially termed as an unexplained military accident. Father and son were brought together again 50 years in the future. Follow Captain Robert E. Hayes, the father from World War II in 1943 and General Robert E. Hayes Jr., the son from 1993 as they meet face to face once again, this time, in a very unusual way and get to know one another in a bizarre twist of fate that cannot be explained. With the help of a military historian, and their attempt to challenge what appears to be the impossible, father and son, along with the military historian, devise and attempt to carry out a mission that, if successful, would utilize the technology of 1993 on an aircraft from 1943 and alter the course of World War II and thereby save millions of lives in the process. In the end, follow four generations of Hayes men as they love and honor one another over a span of 68 years, Lieutenant Berry Hayes, World War I Curtiss H-16 bomber pilot, great grandfather, Captain Robert E. Hayes, World War II B-17G Flying Fortress pilot, grandfather, General Robert E. Hayes, Jr., Vietnam Veteran F-4B pilot, father and Lieutenant Colonel Edward Berry Hayes, F-16 Fighting Falcon, great grandson, grandson and son.*

*B-17 Flying Fortress in Action May 25 2020 The B-17 Flying Fortress dropped more bombs than*

any other US aircraft in WWII and is arguably the iconic bomber of that epic conflict. During the 10 years in which it was produced, a total of 12,731 of the B-17 heavy bombers rolled off the assembly lines of Boeing, Douglas Aircraft, and Lockheed's subsidiary Vega. First flown in 1935, the aircraft was repeatedly modified, upgraded, and perfected in response to combat experience. Also highlights the roles played by individual aircraft and their crews, including Memphis Belle, which completed 25 missions over enemy territory; Stage Door Canteen, christened by Winston Churchill's daughter; and All American, which demonstrated the incredible toughness of the Flying Fortress by returning safely to base despite having its tail nearly sheared off by a Messerschmitt. *History of the Experimental Aircraft Association's Boeing B-17G Flying Fortress "Aluminum Overcast" Feb 14 2022*

*B-17 Flying Fortress Units of the Pacific War Apr 04 2021 The B-17 saw combat in the Pacific from the moment a formation of these bombers arrived at Pearl Harbor during the midst of the 7 December 1941 Japanese attack. By the end of World War II (1939-1945), SB-17 rescue craft were saving combat crews in the waters off Japan. This book reveals why, to the public, the Flying Fortress was better known than the Spitfire, the Boeing 747, or Lindbergh's Spirit of St Louis. The name recognition enjoyed by the B-17 was that company's reason for creating B-17 Steak Sauce and Osprey's reason to round out the saga of this great wartime aircraft.*
