And when He created us, He had a plan and a purpose for our life the Bible tells us in (Jer. 29:11) For I know the thoughts that I think towards you, says the Lord, thoughts of peace and not of evil, to give you a future and a hope, we know that God's plan for us is good, if we find ourselves struggling and stumble, this is what it says in (1 Pet. 2:8) They stumble, being disobedient to the word, to which they also were appointed, it seems that when bad things happened people want to blame God for it, it's not God's fault, He did everything to help us, He gave us His only begotten Son that died for our sins so we can have eternal life. (2 Cor. 5:15) And He died for all, that those who live should live no longer for themselves, but for Him who died for them and rose again. He gave us the Bible, which gives us the knowledge to have a good bless life and for us to fulfill the will of God for our life. From the very beginning it would seem that God had a plan for America. From its discovery by Europeans to its settlement, from the Revolution to Manifest Destiny, from the stirrings of civil unrest to civil war, America was on a path. In our pluralistic world, when textbooks are being rewritten in ways that obscure the Judeo-Christian beginnings of our country, the books in the Discovering God's Plan for America series help ground young readers in a distinctly evangelical way of understanding early American history. As young readers look at their nation's development from God's point of view, they will begin to have a clearer idea of how much we owe to a very few--and how much is still at stake. These engaging books bring history alive in a way that will inspire young people to do their important part in shaping this nation into the future. Dee recalls growing up in a family where faith was a mandatory requirement. She describes how that foundation helped to shape her beliefs today. Her story goes from childhood to adulthood and the challenges she faced trying to figure out how God played a role in her life. After tragically losing two younger sisters--one to sickness, and the other to murder--in addition to experiencing sexual and physical abuse, she made the decision to surrender her life to Christ and return to the church. She believed God had more in store for her life. She shares how she broke away from painfully broken relationships, a lifestyle of partying, and how she broke free from the addictive use of cigarettes, alcohol, and drugs. She shares how her life was transformed by her faith, and the lessons she learned along her journey. She also shares how her life is enriched by new relationships within the church, and how it inspires her spiritual growth. She encourages her readers to try faith. Her mission is to inspire her family and others to take a leap of faith. Her deepest prayer is that those who are seeking will experience the power of God, receive his forgiveness with the promises of seeing her in eternity. Is evolution true and if so, is evolution compatible with Christianity? These questions face not only students each year but also our modern society as a whole. The answers to these questions are important because they will determine our understanding of nature and our relationship with God. Dr. Turner in his book, Discovering God and His Creation, focuses on these two questions. He tells of his lifelong journey in the worlds of faith, science and evolution and what he has discovered as he searched for answers. He outlines the overwhelming evidence for both the existence of God and evolution and explains how nature cannot be understood without evolution. He reveals that the solution to the faith and science dilemma lies in a deeper understanding of the Christian belief that God is a father. Dr. Turner's journey began with the influence of a father and, after completion of graduate studies in evolutionary biology and medical school, ended with his realization that evolution is more compatible with Christianity than any other explanation for nature. The reasons behind Dr. Turner's conclusion are enlightening and will provide a long sought for answer to the standoff between faith and science. When Dorsey was born, the doctors believed he wouldn't survive due to his life-threatening disability. Yet, now that he is approaching the age his parents were when they had him, author Dorsey Ross has lived a life of perseverance, overcoming countless obstacles. He enjoys encouraging others not to allow what they have gone through to stop them from living the life that God has for them. Dorsey's new autobiography, Overcomer, details the challenges he and his family faced when at birth he was diagnosed with Apert Syndrome, a genetic disorder that causes abnormal shaping of the skull and face. Though pressured by doctors to place Dorsey into an institution, his parents decided to take him home and do what they could to help his life thrive. His parents never held him back from the things he wanted to accomplish, and they discovered there were very few things he couldn't do. Dorsey has undergone multiple operations over his lifetime. However, regardless of what he has had to face, Dorsey has not given up. He does everything he can to accomplish the goals and dreams God gave to him. In an age when men can be nurses or stay-at-home dads and women can be pilots or business managers, there are few areas left where gender alone determines what a person can and cannot do. Yet different models still exist in Christian ministry. Some denominations contend that certain areas of church life should be the preserve of men alone, while others allow full access to all areas for both sexes. But which is right? In this compelling email exchange, Lis Goddard and Clare Hendry search the Scriptures for guidance on the roles of women and men in church leadership today. Against the busy backdrop of everyday life, their conversation covers all the key passages, leaving no tricky verse unexamined. Passionately arguing their respective corners, they pinpoint where they disagree - and agree - all the while modelling Christian debate and friendship. Points to ponder helpfully enable readers to explore their own conclusions.
