Ghost Wave Nov 22 2022 “Takes us to a place of almost mythic power and tells a story that unfolds like a long ride on a killer wave . . . compellingly written.” —Sebastian Junger, New York Times–bestselling author *Rising from the depths of the North Pacific* lies a fabled island, now submerged just fifteen feet below the surface of the ocean. Rumors and warnings about Cortes Bank abound, but among big wave surfers, this legendary rock is famous for one simple (and massive) reason: this is the home of the biggest rideable wave on the face of the earth. In this dramatic work of narrative nonfiction, journalist Chris Dixon unlocks the secrets of Cortes Bank and pulls readers into the harrowing world of big wave surfing and high seas adventure above the most enigmatic and dangerous rock in the sea. The true story of this Everest of the sea will thrill anyone with an abiding curiosity of and respect for mother ocean. “A terrific, deeply researched tale about a truly wild place. You couldn’t make up Cortes Bank, or the characters who’ve tried to make it theirs.” —William Finnegan, Pulitzer Prize–winning author of *Barbarian Days: A Surfing Life* “A first-rate account of an amazing phenomenon and the people who tried to conquer and exploit it. A great read.” —Winston Groom, New York Times–bestselling author of *Forrest Gump* “After reading Chris’ most excellent account of the monstrous waves of the mysterious Cortes Bank—the Bermuda Triangle of the Pacific—I never thought I would ever consider riding a wave like this. But after surviving a five-foot, head-first fall from the stage earlier this year, I think I might be ready.” —Jimmy Buffett

North Shore Chronicles Jan 20 2020 Provides updated profiles of surfers the author has met during his many years of surfing on Oahu's North Shore.

Motorized Obsessions Dec 11 2021 From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent - and loud - fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it - personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

Relentless Improvement Oct 29 2020 Tracing the author's decades-long continuous improvement journey, *Relentless Improvement: True Stories of Lean Transformations* walks readers through vivid shop floor experiences to convey a genuine feel for the environments in which Lean Six Sigma transformations occur. Recounting numerous Lean Six Sigma transformations, it illustrates the spectrum of successful operational tactics. The story starts just outside Detroit, Michigan in the 1970s when the auto industry was booming, and most people in the area worked in the car factories, or in one of the component factories that supplied the Big Three. The complexity and detail of the projects grow chapter by chapter. The book begins by explaining how to manage Lean basics such as applying 5S, shortening product cycle times, and creating standard work. It then progresses to factory Lean Six Sigma transformations. Providing implementation guidance geared to functions on the operational level, the book: Presents stories based on the author's interactions with company

leaders and shop-floor employees in the midst of great change Illustrates real-world plant politics and manufacturing situations using compelling stories Highlights valuable lessons learned at the end of each chapter Using an engaging story format, the book recounts the author's career experiences to provide you with a real-world understanding of how to use Lean tools. The stories in the book illustrate everything from standard work and takt time to Kaizen events and Total Productive Maintenance. The text also includes accounts of "front end" or administrative processes such as product development and materials handling.

Hurricane Dorian—The Story of the Greatest and Deadliest Hurricane To Sep 08 2021 Hurricane Dorian is a heartbreaking tale for The Bahamas. It was one of the strongest North Atlantic hurricanes and the strongest Bahamian hurricane and caused about \$3.4 billion in damages to the Bahamian economy. Hurricane Dorian struck Abaco and Grand Bahama with wind speeds of 185 mph and had the highest wind speeds for a North Atlantic landfalling hurricane. The storm caused the death of 74 people in The Bahamas. In addition, more than 75 percent of all homes on Abaco were either damaged or destroyed. In East End, Grand Bahama,

satellite data suggested that 76 to 100 percent of the buildings were destroyed. This book includes the meteorological history, records broken, compelling personal recollections, its impact on each island affected, a chapter on climate change and its effects on hurricanes, the benefits of hurricanes, and why we need them on planet Earth. This book is a must-read!

Rescue 1 Oct 09 2021 A strange wind is blowing as an ex-military marine salvage expert faces down a former Soviet scientist to save his future wife, and the future itself . . . Spring, 1995: Violent and unnatural weather patterns across the globe lead a top NOAA climatologist to one conclusion: something's fishy in the Sargasso Sea, an area more commonly known as the Bermuda Triangle. But before he can finish uncovering the truth he is found dead, the victim of a mysterious mugging. His protégé, determined to find the reason behind his mentor's untimely death, sails off for the truth—but vanishes without a trace. Still reeling after his experiences with the secret world order known as the C.O.R.E., former Coast Guard hero turned marine salvage mogul Chance Blackwell is drawn into the drama after the daring rescue of oil rig crew members from a runaway derelict cruise liner. He returns home to the Caribbean island of St. Thomas to prepare for his upcoming wedding. After a life of crazy adventure he's expecting things to be calmer—but before he can

say I do, a crazed ex-Soviet scientist kidnaps his fiancée, alerting him to a plot to take over the world governments. Can Chance, with the help of his friends, rescue his fiancée and save the world from the building Storm Vortex?

Maverick's Sep 20 2022 With its massive faces, punishing rocks, and treacherous currents, Maverick's presents a surfing challenge like no other. Author Matt Warshaw has updated his critically acclaimed illustrated history of Maverick's to cover important recent developments, and we've added a fresh new cover to kick this edition off in style. "A fascinating account," to quote Surfer magazine, it takes "a cue from Sebastian Junger's *The Perfect Storm*...Warshaw focused on a single event...and expands on it to illuminate an entire culture and its world beyond waves." The event was the death of celebrated surfer Mark Foo, one of

those who congregate every winter to test themselves in the dark, foreboding waters. And what unfolds in Maverick's is no less than the story of big-wave surfing, from its ancient Hawaiian origins to modern tow-in riders. It's a book to be enjoyed not only by those who surf deep in the waves, but also by those whose taste for adventure is satisfied deep in the pages of a very good book.
