instalment of the vwork descriptive of the coleopter ts insects indigenou to Jew Zealand, by Captain Thomas Broun, of vvhich a first volume was issued by this department in 1880, and a second in 1881. A portion of the descriptions in the present volume - viz, Nos. 1322 to 1557 - have already been printed in the Journal of Science, but the author desired the incorporation of these in the present work in order to render it complete for the purpose of refer ence. The alphabetical Index has been rearranged so as to refer to the whole work as if it were one volume, and thus supersedes the Index given With Part II.
