Personal Injury and Damage Ascertainment under Civil Law Preparing and Prevailing in Your Accident Claim
Personal Injury Law in Virginia 4th Edition Anatomy of a Personal Injury Claim Maximizing Damages in Small Personal Injury Cases Personal Injury Forms: Discovery & Settlement Damages and Compensation Culture A Practical Guide to Costs in Personal Injury Claims - 2nd Edition Virginia Personal Injury Forms

In Florida, accidents unfortunately happen far too often. It may be a car accident, a dog bite, or a slip and fall, if someone else is to blame, you may need to begin the process of navigating Florida's complex laws. Florida is a no-fault state yet does allow for you to file a personal injury claim if your injuries resulted in significant or permanent physical damage. You will need to show that the other party failed in their duty not to harm you and that their failure was the cause of your injuries. This book looks gives you insight into some of the "Deadly Sins" that can negatively impact your Florida personal injury claim. It begins by discussing the basic laws in Florida to help you gain the foundation you will need to be successful. The brunt of this book is about guiding you through some of the common mistakes people make during the settlement process as well as how the insurance companies take advantage of these missteps. Clear, succinct, and indispensable, this critical manual will help safeguard your

rights and give you important insights to lessen the stress and pains of an accident. Begin to level the playing field. *Winning Your Personal Injury Claim* teaches you what to do after you or a loved one has been hurt. It gives you the precise instructions you need to settle with an insurance adjuster, handle the attorney for the other side and win a court battle. Armed with the right information, anyone can handle a personal injury claim without a lawyer. Attorney Joseph Matthews provides strategies for handling every stage of the insurance claim process and shows consumers how to protect their rights after an accident, evaluate their claim, avoid insurance company run-arounds, obtain a fair settlement, and more. The damage portion of a personal injury claim is the heart of the tort case and determines whether or not the claim is worth pursuing. The attorney must be able to determine accurately the level of damages the injured plaintiff can expect to recover for his or her injuries. The checklist format of this book provides a quick and thorough reference for an attorney to use when evaluating a client's personal injury case. The attorney can ensure that he or she has met the obligation owed to the client to identify and calculate properly those damages recoverable and make sure that the damages are pleaded properly and that the evidence necessary to prove the claim is gathered. This checklist allows the attorney to determine the appropriate basis for the damage claim and what

evidence and testimony will be needed. Personal Injury Law in Virginia, Fourth Edition occupies a critical spot in Virginia legal literature with comprehensive coverage of personal injury actions, in one convenient volume. The book contains extensive references to the cases and statutes that govern liability, defenses, and damages for personal injuries in the Commonwealth. Personal Injury Law in Virginia has been cited by the Virginia Supreme Court, the United States District Court for the Western District of Virginia, the Court of Appeals of Virginia, and various circuit courts in Virginia. Winning Your Personal Injury Claim teaches you what to do after you or a loved one has been hurt. It gives you the precise instructions you need to settle with an insurance adjuster, handle the attorney for the other side and win a court battle. The Lawyers' Guide to Personal Injury Law is an instructional textbook for attorneys who want to become experts in the field of negligence law. The book provides a comprehensive analysis of the law in a multitude of areas within the field, including the various types of construction accidents, motor vehicle accidents, premises accidents, and more. The Lawyers' Guide to Personal Injury Law also provides a detailed roadmap - from intake through trial - to successfully litigating each of these claims and, ultimately, maximizing monetary compensation for accident victims and their families. This guide is designed to give consumers and New Jersey accident victims general

information regarding personal injury claims and lawsuits in New Jersey. After your injury: Settle your claim the right way When you've been hurt in an accident, the prospect of dealing with insurance companies and lawyers can feel daunting. But armed with the right strategy, you can handle a claim yourself—and save thousands of dollars in the process. How to Win Your Personal Injury Claim guides you through the insurance claim process, step by step. After almost any kind of accident, you'll learn how to: figure out what your claim is worth gather the right medical records and accident reports prepare an effective demand letter counter insurance company delay and other common tactics negotiate your way to a full and fair settlement, and stay on top of your case if you hire a lawyer. This completely updated edition How to Win Your Personal Injury Claim includes the latest state-by-state lawsuit filing deadlines and small claims court limits. Your Delaware claims guide: What every injured person needs to know about their personal injury or workers' compensation claim. Kenneth Berger has dedicated his professional career to the representation of the injured and aggrieved. His practice focuses on the fields of personal injury, workers' compensation, and civil litigation. More specifically, Mr. Berger seeks to represent individuals and families in cases involving auto and trucking accidents, work injuries, unsafe products, medical malpractice, nursing home negligence, property

hazards, insurance disputes, consumer abuses, wrongful death, and other areas of civil law. “As an injury attorney, I have a responsibility not only to advocate, but to protect and give back,” Mr. Berger says. “My book, *Your Guide to South Carolina Personal Injury & Workers' Compensation*, provides a number of safety tips designed to help the public—especially families with children—avoid accidents. I also look for ways that my law firm and I can strengthen the community in which we live.” Everyone has an opinion about personal injury litigation. Many people feel that the right to sue for injuries should be severely limited in hopes that insurance costs will decrease. Others fear that legislation enacted to restrict the right to sue will make big business, the insurance industry, and medical practitioners less accountable to the public. They also fear the loss of financial compensation for injuries caused by a negligent or careless act. In this book, I examine every aspect of personal injury litigation, from attracting new clients to jury trials, and beyond. The personal injury laws vary from state to state and between state and federal court. Since 1983, I have been a trial lawyer in Pennsylvania and New Jersey. Much of the information presented involves those experiences. The law in your state may be different. Nevertheless, there is much uniformity throughout the states. The information in this book can be used by personal injury litigants and their counsel in any state. You may have to refer to local

sources for the law or practice that applies to your situation. The law is dynamic and ever-changing. It is flexible enough to accommodate a changing world. When the first automobile accident lawsuit was filed, the judge was not deterred by the fact that there were no automobile laws for guidance. The judge simply looked to the legal logic of horse-and-buggy cases. Similarly, when new technologies cause injuries in the future, the law will evolve to accommodate this. The federal and state legislatures constantly pass new laws. The courts rule every day on disputes that require interpretation of new laws and old. When a court decides a dispute, the court's ruling becomes precedent for the future. In other words, the interpretations that the judges dispense become the laws by which future litigants can be guided. This concept is known by the Latin term *stare decisis*.

Sample Forms and Worksheets

A book like this one cannot possibly include every procedural requirement of every jurisdiction in our country. The sample forms provided are general in nature, but are designed to give you a good idea of the types of forms that are used in most locations. Your state, county, and/or judge will have rules and forms that are not included in this book. Check with the court clerk and/or court website for your case to review any local rules and forms that apply. Often, such forms require the same information as the forms in this book, and are merely laid out differently or use slightly different language. You must

follow the court's rules and use its forms. When those forms conflict with mine, use theirs. Know your rights! Find out how to make the best case for yourself and win your personal injury claim. Dealing with insurance companies and lawyers when filing a personal injury claim can feel like another accident is in the offing. But you can handle a claim yourself -- and save hundreds or thousands of dollars in the process. **How to Win Your Personal Injury Claim** shows you how to handle almost every accident situation, and guides you through the insurance claim process, step by step. Learn how to: -protect your rights after an accident - determine what your claim is worth - handle a property-damage claim - deal with uncooperative doctors, lawyers and insurance companies - counter the special tactics insurance companies use - prepare a claim for compensation - negotiate a full and fair settlement - stay on top of your case if you hire a lawyer This edition of **How to Win Your Personal Injury Claim** provides your state's most recent laws, small-claims court limits and Department of Insurance contact information. Plus, you'll find an all-new chart explaining your state's in-car text and cell phone laws. **IF YOU'VE BEEN HURT IN A CAR WRECK, WILL YOU KNOW HOW TO TAKE ON THE INSURANCE COMPANY AND THEIR LAWYERS BY YOURSELF?** Think about that... You've been hurt in a car wreck and it was not your fault. And now you have a lot of questions, but not a lot of answers: * who will pay for all of

your medical bills? * you don't have health insurance, so how do you get the medical treatment you need for your injuries? * how can you recover your lost wages? * who will pay for your car to be repaired? * what if your car can't be repaired and is declared a total loss? * what if you owe more than the car is worth? * what about your future medical needs or lost wages? * what are the 3 things you must prove to be able to recover in your personal injury claim? This is a lot for anyone to handle - all of the phone calls back and forth, the emails, the paperwork, the releases. Will you have the time or the knowledge to handle this by yourself? Do you need a guide for consumers to help explain the process to you? And ask yourself - do you really want to take on the insurance company and their lawyers - especially without educating yourself on the claims process here in Georgia? Are you an attorney who is looking to expand your practice to help injured victims and their families injured in car wreck cases? Do you know enough about the personal injury claim process to zealously and ethically represent them? "The Authority On Personal Injury Claims In Georgia: The Definitive Guide For Injured Victims And Their Lawyers In Car Accident Cases" was written by Gary Martin Hays, a personal injury attorney with over 24 years of experience handling car accident claims in Georgia. A former insurance defense lawyer, he now only represents injured victims and their families. Since starting his own firm in

1993, he has helped over 29,000 clients recover over \$250,000 million dollars. To what extent can and should people participate in dealing with the personal problems they bring to consulting professionals? This book presents two alternative models for the conduct of such professional-client relationships as those between lawyers and clients and doctors and patients. One model, called the traditional, prescribes a role of minimal participation for the client. The other, called the participatory, prescribes a role of decision-making shared by the client and the professional. After presenting the two models and their implications, the book systematically tests their validity in a case study of the lawyer-client relationship in the making of personal injury claims. The distinctive feature of this work is a sophisticated and objective test of the traditional proposition that passive clients get better results than active clients. Evidence drawn from a sample of actual cases of personal injury claimants reveals that active clients in fact fare significantly better than passive clients. The book is important and novel in four respects: it offers the first clear and realistic proposal for increasing the control people can have over the complex problems they bring to professionals; it presents concrete evidence that lay participation in complex decision making need not be inefficient; it gives practical advice to clients and to lawyers for dealing with each other more effectively and it presents a comprehensive picture of the actual and often

dramatic experiences of accident victims, and what it is like to make a personal injury claim. It's two decades since the CPR came in. Costs are now fixed; many of the problems with costs are fixed; but costs law is anything but simple. There is so much you need to know. This book is the place to start. It's an everyday guide to the everyday issues, with each point covered in a bitesize format. Don't know how the rules apply in the circumstances of your claim? Find it here. Can't remember the name of that key case? Find it here. Need a quick guide on the law in a specific area? Find it here. The book is rich in expert insight into the way that costs claims work. It is a more accessible and streamlined practitioner's handbook than other costs textbooks on the market, and also seeks to set itself apart by trying to give useful guidance on those difficult remaining topics on which the law does not yet give certainty. The first half of the book deals with the fixed costs regime in detail. The later chapters deal with costs procedure and detailed assessment, all laden with practical tips for all parties so as to get to the right or the best result as soon as possible. The book is aimed particularly at those working in personal injury claims, but also offers invaluable insight to the way fixed costs work for the wider civil litigation community. We all know an expansion of fixed costs will come, and those who are ready will be most likely to thrive. ABOUT THE AUTHOR Matthew Hoe is a solicitor and advocate, and director of

dispute resolution at national firm Taylor Rose TTKW. He has specialised in legal costs for almost 17 years. He has acted in some of the major costs cases of the last decade, including most recently cases such as Bamrah v Gempride on misconduct in assessment proceedings, Hislop v Perde on late Part 36 acceptance in fixed costs cases, Cham v Aldred on counsel's fees in fixed costs cases and Adelekun v Ho on contracting out of fixed costs. Outside of work, Matthew watches far too much YouTube and enjoys fixing broken electronics and general tinkering with computers. He lives with his family near Peterborough. This book is written to provide you with more insight and knowledge about how the personal injury claims process works. This book covers topics such as: Protecting my right to compensation; mistakes made when dealing with your doctors after the injury; four deadly sins that can wreck your case; and insurance company tricks of the trade. Learn how to choose small to medium-sized personal injury cases with the best chances of success, and how to efficiently deliver the biggest results. Includes pattern responses to adjusters, case-screening rules, cost-reducing techniques, sample letters, discovery, motions and more. The focus of the essays in this book is on the relationship between compensation culture, social values and tort damages for personal injuries. A central concern of the public and political perception of personal injuries claims is the high cost of tort claims to society, reflected in

insurance premiums, often accompanied by an assumption that tort law and practice is flawed and improperly raising such costs. The aims of this collection are to first clarify the relationship between tort damages for personal injuries and the social values that the law seeks to reflect and to balance, then to critically assess tort reforms, including both proposals for reform and actual implemented reforms, in light of how they advance or hinder those values. Reforms of substantive and procedural law in respect of personal injury damages are analysed, with perspectives from England and Wales, Canada, Australia, Ireland and continental Europe. The essays offer valuable insights to anyone interested in the reform of tort law or the tort process in respect of personal injuries. Shows you how to handle almost every accident situation, and guides you through the insurance claim process step-by-step. Auto Accident Personal Injury Insurance Claim reveals the inside secrets of claim negotiating and shows you how to settle your case for top dollar. This book will guide you through the insurance claim wilderness and provide you with the answer to that critical question: How much is my "pain and suffering" worth? The mystery of how to place a value on your "pain and suffering" has been solved with the introduction of BASE: The Baldyga Auto Accident Settlement Evaluation Formula. It will help you to prove your losses, and to know how to present them during your negotiations. You'll learn

the all-important 4 "Values" that BASE provides for you: The PREMIUM Value, The MEAN Value, The CORE Value and The LOW Value. The BASE Formula is a simple, yet revolutionary evaluation tool. Knowing how to guide an accident claim to a victorious payoff is not an exclusive ability, possessed by a select few. Don't be seduced into thinking you can't do it yourself. That simply isn't true! This book will show you how. If you've been in an accident and you're uninformed, you have little or no concept of the ultimate value of your possible recovery. Because of this, you're less able to make appropriate demands. As the claims negotiation process moves towards a close, you're settlement demands are very often too low or too high. You're ignorant of the accepted principles, which justify your demands. When you attempt to negotiate a settlement with these handicaps, you run a strong chance of being victimized. The amount of compensation you should be paid isn't found in a crystal ball. Rather, a number of simple factors such as the type of accident, related injuries, out-of-pocket expenses, medical costs and lost wages all go into determining how much a claim is worth. What amount an insurance company is willing to pay actually falls into a fairly narrow spectrum. To read this book is to become informed on bodily injury claim settlement facts and details. You'll discover how to implement BASE so you can determine the monetary value of the "pain and suffering" you've

endured because of your injury. You'll know what to ask for and how to negotiate it. You'll learn how to supply the adjuster with all the documentation and proof needed to establish your claim. You'll gain the knowledge needed to accomplish this when you read *Auto Accident Personal Injury Insurance Claim*. And you'll walk away from the negotiation table with a smile on your face. Discover hundreds of tested forms, plus detailed checklists and practice guides for client contact, case evaluation, experts, discovery and settlement in any personal injury case. Track critical topics in specific cases, such as automobile, medical negligence, slip and fall, and others. Forensic mental health assessment (FMHA) has grown into a specialization informed by research and professional guidelines. This series presents up-to-date information on the most important and frequently conducted forms of FMHA. The 19 topical volumes address best approaches to practice for particular types of evaluation in the criminal, civil, and juvenile/family areas. Each volume contains a thorough discussion of the relevant legal and psychological concepts, followed by a step-by-step description of the assessment process from preparing for the evaluation to writing the report and testifying in court. Volumes include the following helpful features:

- DT Boxes that zero in on important information for use in evaluations
- DT Tips for best practice and cautions against common pitfalls
- DT Highlighting of

relevant case law and statutesDT Separate list of assessment tools for easy referenceDT Helpful glossary of key terms for the particular topicIn making recommendations for best practice, authors consider empirical support, legal relevance, and consistency with ethical and professional standards. These volumes offer invaluable guidance for anyone involved in conducting or using forensic evaluations. This book addresses the assessment of personal injury claims, and explores the history and importance of this process, the legal standards and the procedure for applying this assessment in court. Established empirical foundations from the behavioral, social, and medical sciences are then presented. Finally, the book provides a detailed "how-to" for practitioners, including information on data collection, interpretation, report writing and expert testimony. Discover a comprehensive guide to the world of auto accident and personal injury claims! Do you live in the state of California, and you're struggling to navigate the world of auto accident claims? Are you worried that you won't get the compensation that you deserve, or that your premiums will go up if you claim? Then this book is for you! With a simple, common-sense approach and a conversational tone, California Auto Accident Claims will take you by the hand and show you exactly how to get compensation for yourself or your loved ones. Scroll up and grab your copy now to learn about auto accident claims from an expert! Utah Auto Law is the first and only comprehensive treatise on Utah's law of auto

insurance and accident liability, covering every aspect involved in the settlement of an auto personal injury claim. Not only does this treatise discuss in great and meticulous detail the core legal issues of auto accident law (e.g., insurance coverage, bad faith, damages, traffic law); it also discusses in similar detail tangential issues (e.g., negligent entrustment, subrogation, exclusive remedy) that can arise in some cases. Utah Auto Law provides for both plaintiff and defense perspectives, and is designed to serve attorneys, judges, and claims adjusters. With its detailed table of contents and concise text, this single-volume treatise is as handy as it thorough -- readers will find it indispensable in both the office and the courtroom. Texas Personal Injury Handbook provides insurance professionals, legal assistants, attorneys, and others in the field of personal injury litigation, an accessible and authoritative "one-stop" handbook on personal injury cases. Case law, statutes, and policies concerning a variety of different subjects have been assembled into one source, focusing exclusively on Texas law. The Handbook can be used in a number of different ways. Insurance professionals may use the Handbook in evaluating personal injury claims, and determining coverage. It also may be used as a portable basic reference book by attorneys and paralegals engaged in the prosecution or defense of personal injury actions. Additionally, corporate counsel and others who may potentially be involved in

evaluating personal injury claims of employees or third parties will also find the Texas Personal Injury Handbook to be an easy-to-use reference. Cross-border claims for personal injuries are becoming more common. Furthermore, European nationals increasingly join class actions in the USA. These tendencies have created a need to know more about the law of damages in Europe and America. Despite the growing importance of this subject, there is a dearth of material available to practitioners to assist them in advising their clients as to the heads of damage recoverable in other countries. This book aims to fill that gap by looking at the law in England, Germany and Italy. It sets out the raw data in the wider context of tort law, then provides a closer synthesis, largely concerned with methodological issues, and draws some comparative conclusions. If you suffered relatively minor injuries in an accident, you can handle your personal injury claim without having to share a meaningful settlement with an attorney. Jonathan D. Roven, an experienced personal injury litigator with a successful practice, wrote this guide for people with smaller claims. He walks you through: • steps to take after the first one hundred hours of an accident; • reasons why you should never admit to wrongdoing; • putting a settlement demand together; • negotiating a settlement. Roven also highlights the importance of seeking medical treatment, getting a police report, and finalizing the settlement. Additional

topics include when to communicate with the other side's insurance company, showing proof of lost wages and earning capacity, mediation, and limited aspects of litigation. Get an insider's take on how to handle a personal injury claim from start to finish with this practical guide that aims to Empower the Injured. According to figures published by the Association of British Insurers, the insurance industry detected 125,000 dishonest claims valued at £1.3 billion in 2016. With similar amounts of fraud going undetected each year, it is unsurprising that insurers invest around £200 million to combat it. Personal Injury Surveillance is a unique guide, providing an insight into the hitherto undisclosed methodologies of personal injury surveillance and the systemic use of an unregulated profession to investigate accident victims. Surveillance is one of many tools used by the UK insurance industry to investigate the veracity of a personal injury claim; others include statistical analysis of claims data and complex algorithms with key fraud indicators, enabling insurers to get upstream of the issue and, in some cases, actually predict fraud before it occurs. However, there is nothing more compelling than surveillance evidence which is why it remains a fundamental element of the claims management process. Significant investment in fraud awareness training coupled with new legislation and a more collaborative approach has provided the insurance industry with teeth, and it isn't afraid to use them. This

guide will provide honest claimants, their legal representatives and insurers with an enlightening, and in parts amusing, insight into the world of personal injury surveillance. It will also prove sobering for anyone contemplating the submission of a fraudulent personal injury claim with intent to defraud an insurer. The Law Offices of MJG, PLLC is focused on taking care of our community and offering our assistance whenever necessary. With 30+ years of experience in the area of personal injury, our goal for this book is to inform and educate the public on all areas of personal injury. The Definitive Guide for Injured Victims & Their Lawyers in Car Accident Cases: IF YOU'VE BEEN HURT IN A CAR WRECK, WILL YOU KNOW HOW TO TAKE ON THE INSURANCE COMPANY AND THEIR LAWYERS BY YOURSELF? Think about that for a moment . . . You've been hurt in a car wreck and it was not your fault. And now you have a lot of questions, but not a lot of answers: * who will pay for all of your medical bills? * you don't have health insurance, so how do you get the medical treatment you need for your injuries? * how can you recover your lost wages? * who will pay for your car to be repaired? * what if your car can't be repaired and is declared a total loss? * what if you owe more than the car is worth? * what about your future medical needs or lost wages? * what are the 3 things you must prove to be able to recover in your personal injury claim? This is a lot for anyone to handle -

all of the phone calls back and forth, the emails, the paperwork, the releases. Will you have the time or the knowledge to handle this by yourself? Do you need a guide for consumers to help explain the process to you? And ask yourself - do you really want to take on the insurance company and their lawyers - especially without educating yourself on the claims process here in Georgia? Are you an attorney who is looking to expand your practice to help injured victims and their families injured in car wreck cases? Do you know enough about the personal injury claim process to zealously and ethically represent them? "The Authority On Personal Injury Claims In Georgia: The Definitive Guide For Injured Victims And Their Lawyers In Car Accident Cases" was written by Gary Martin Hays, a personal injury attorney with over 24 years of experience handling car accident claims in Georgia. A former insurance defense lawyer, he now only represents injured victims and their families. Since starting his own firm in 1993, he has helped over 29,000 clients recover over \$250,000 million dollars. In this handbook, Hays provides you a peek behind the curtain to see how his law firm successfully represents his clients. Topics include: * Car Wreck Facts & Myths * The Scene Of The Crash * Investigating the Wreck * Property Damage: Total Losses, to Repairs, to Diminished Value * Your Injuries * Medical Treatment For Your Injuries * Medical Bills: Med-Pay Coverage, Health Insurance, and The Uninsured *

The 3 Things You Must Prove To Recover On Your Personal Injury Claim * "What Is My Case Worth?" * Do I Take On the Insurance Company And Their Lawyers By Myself? * How Do I Find The Right Lawyer? * The DEMAND Process - How To Tell The Insurance Company What Your Case Is Worth! * Liens And Subrogation Claims: Who Will Claim They Are Entitled To Some (Or Maybe ALL Of Your Settlement) * Legal Deadlines * Litigation: Do You File Suit On Your Case? The book also contains a presentation that Mr. Hays gave to other attorneys at a continuing education seminar for lawyers regarding diminished value claims in Georgia - a secret that is literally saving the insurance industry millions of dollars each year - money that should be going to Georgia's consumers. In addition, FREE bonus chapters from three (3) of his previous books that he co-authored are included: * "3 Secrets The Insurance Company Doesn't Want You To Know About Your Personal Injury Claim" * "The Mourning After: Helping Families Cope After A Drunk Driving Wreck" * "I Will Make A Difference!" This volume serves to provide an international overview of personal injury compensation in different geographical areas (15 countries already included), with a special focus on the methods used to ascertain the injury and the related damages. It also goes on to clarify the logical and methodological steps required for a sequential, in-depth ascertainment of any traumatic event and the related

personal damage, both pecuniary and non-pecuniary. Personal injury is a legal term for an injury to the body, mind or emotions suffered by the plaintiff under tort and/or civil law regulations. Damages related to the injury can be pecuniary or non-pecuniary in nature. Although several comparative studies and research projects on tort and civil law and personal injury claims aimed at developing new tools for promoting harmonization of private law have been performed at an international level, heterogeneity and divergences still exist in the definition and compensation of personal injury and damage across different national legislative systems. The starting point for any awarding procedure should be a medical, or rather a medico-legal, assessment to gain evidence on the trauma or event causing the injury, the mechanism of injury, the pre-existing health status of the injured party, and the health consequences of the injury (temporary and permanent impairment, work incapacity, etc.). In order to pursue the ultimate goal of an international harmonization of personal injury compensation, it is of utmost importance to define the quality requirements for the medico-legal ascertainment methodology, which are essential for guaranteeing the objectivity, rigor, and reproducibility of the data and the evidence collection procedure. Currently, there are no supra-national medico-legal guidelines dealing with the ascertainment methodology of personal injury and damage under tort and civil law. Stan Plappert

will take the reader from their terrible crash and associated injuries to courtroom success in a simple to use, consumer-oriented guide based on his insurance and legal Stan Plappert has written this consumer-oriented guide to help Floridians who have been involved in a crash. He explains the legal process from an insurance background to help give the reader a leg up on the daunting and unfamiliar claim process. This book will guide the consumer from reporting the claim to dealing with adjusters and opposing counsel and preparing for trial. He helps the reader feel comfortable with the legal process by showing examples and explaining what to expect. This book is like no other, a personal injury consumer guide from an insurance professional.
